# PILLARS

At Kids Palace, children thrive in a safe, nurturing environment while engaging in activities centred around five core pillars: Guided by experts, young minds delve into gardening, embrace farm-to-table cooking, express themselves through art, practice mindfulness, and explore the world around them.

## SUSTAINABILITY

Our sustainability program fosters a love for the environment and celebrates diversity and inclusion. Children engage in eco-friendly activities like gardening, learning about biodiversity, and growing their own fruits and vegetables. The program also promotes inclusivity by celebrating various cultural festivals, encouraging respect and appreciation for different cultures and backgrounds.

## CULINARY

Our culinary program is designed to ignite a passion for food and nutrition. Children engage in interactive cooking classes led by Michelin-rated and master chefs, where they explore diverse cuisines and learn healthy eating habits. Special events like bake-offs and themed cooking days add excitement and variety, making culinary arts both educational and fun, encouraging creativity and teamwork.

## ARTS & CREATIVE

As part of our Arts & Creative program, creativity thrives through art workshops, music lessons, and creative play. Children express themselves in painting, sculpture, visual arts, as well as music and dance workshops, helping nurture and develop their talents.

## WELLBEING

Our holistic wellbeing program promotes physical, mental, and emotional health through yoga, mindfulness workshops, and physical activities like dance, sports, and water sports. By combining movement with mindfulness, we aim to develop focus, relaxation techniques, emotional resilience, and a lifelong appreciation for a healthy lifestyle.

## EXPLORATION

At Kids Palace, exploration is central, with outdoor activities such as cycling, obstacle courses, and scavenger hunts fostering physical fitness, resilience, and problem-solving skills. Nature hikes and field trips offer educational experiences about ecosystems, wildlife, and local points of interest, enhancing learning and development while building confidence and independence.

# KIDS ROOMS AND ACTIVITIES

Kids Palace features dedicated rooms tailored to specific age groups: Fatima & Friends, Falcon Adventures, and the Family Nest room. Every room is thoughtfully designed to stimulate discovery and creativity.

In **FATIMA & FRIENDS**, for children aged 10 months to 3 years, the Fatima & Friends room let little ones discover a safe and stimulating world that features a purpose-built toy kitchen. The room also includes a shape-maze wall and sensory sand games to enhance tactile exploration, as well as a cosy tent for hiding and relaxing. A dedicated nap room offers babies a space to rest, while nearby changing facilities ensure convenience for parents.

**FALCON ADVENTURES** invites children aged 4 to 12 years into a realm of creativity and discovery. Here, interactive activities abound, from painting on canvas on easels to moulding clay sculptures. A music room equipped with synthesizers, mini guitars, microphone, and a drum kit fosters musical expression. The dressing-up section sparks imaginations as children transform into firefighters, police officers, and doctors.

In the **FAMILY NEST**, families find a welcoming space designed for shared experiences. Activities and table games such as Jenga and puzzles, along with a climbing rope area and a cage of obstacles, provide opportunities for active play and skill development. A reading corner, adorned with colourful designs and offering a variety of topics, encourages children and parents alike to immerse themselves in books and storytelling.
