SUSTAINABILITY

Mandarin Oriental is committed to contributing to the communities in which we operate and responsibly managing our environmental impacts and social commitments. Here's how we're leading the way in sustainable luxury hospitality:

- 1. ESG Policies:** Our experience in advancing environmental sustainability over the past decades has positioned us well as one of the pioneers in sustainable luxury hospitality. In the face of mounting global societal, economic and environmental risks, we believe sustainability is central to enduring success and resilience. We have thus been actively expanding our sustainability programme to encompass a good balance of environmental, social and governance components and deepening our commitments and goals.
- 2. Global Sustainable Tourism Council (GSTC) – Committed:** Mandarin Oriental Hotel Group has committed to implementing the GSTC Criteria, across our organisation and actively uses Greenview Portal as its sustainability management system.
- 3. Naturally Better Programme:** Corporate responsibility values are deeply ingrained in Mandarin Oriental's culture, and sustainability implications are carefully considered with each and every decision across the Group. One of our guiding principles at Mandarin Oriental is 'Acting with responsibility', and we have established a Naturally Better programme to direct our efforts towards the wellbeing of the planet, of communities and of individuals. Our ambitious goals include all of our hotels being plastic free, as well as expanding our responsible procurement goals to cover key categories of seafood, coffee, tea, vanilla, cocoa and cage-free eggs. You can view some of our additional projects below or explore our dedicated hotel sustainability pages to see how Mandarin Oriental is progressing towards making things Naturally Better.
