WELCOME TO THE MAYFAIR EDIT

Welcome to the January/February Mayfair Edit – two months, two moods, one beautifully curated journey. January is all about soothing rituals, floating sound baths and a soft reset for mind, body and spirit. It's your invitation to rest, restore, and reawaken at your own pace.

Then comes February: the city shimmers with possibility. It's time for connection – whispered conversations, shared indulgences, romantic evenings or warm tête-à-têtes over cocktails. Whether you're celebrating love, friendship, or simply basking in quiet intimacy, this Edit brings together stylish escapes and heartfelt moments just for two.

ESMERALDA'S: THE GOLDEN AGE OF NIGHTLIFE, REIMAGINED

Esmeralda's channels the golden age of New York lounges—elegant, a little unruly, and full of moments that feel like privileged discoveries. Burnt-orange velvet, glowing bar light, and subtle record motifs set a mood that's intimate and quietly theatrical.

From Thursday to Saturday, a six-piece band delivers soul, funk, and disco with contemporary swagger, with DJs keeping the night alive. The menu embraces playful indulgence and cocktails are classic-with-a-twist.

EAST – WEST: CREATIVE CROSSINGS

Mandarin Oriental Mayfair and Mayfair Design District present 'The Living Square' - a year-long cultural programme transforming the hotel into a contemporary salon. Inspired by Hanover Square's literary and musical heritage, each season unveils new encounters that blur art, design, music, and gastronomy.

This next exhibition launching in January 'East – West: Creative Crossings' pairs Asian galleries with their London counterparts, creating cross-continental dialogues where contrasting visions coexist.

Mayfair Design District can arrange bespoke tours of Mayfair's leading galleries or artists.
