ANNE-SOPHIE PIC AT LE NORMANDIE

A reimagined Le Normandie, Thailand's first French fine-dining restaurant, now graced with Two MICHELIN Stars under Anne-Sophie Pic.

Le Normandie embarked on a remarkable new chapter with the arrival of Anne-Sophie Pic, the world's most MICHELIN-starred female chef. This milestone collaboration heralds a bold new era, one that honours the restaurant's storied past while embracing the future of French cuisine in Bangkok.

In this iconic gastronomic institution, Anne-Sophie Pic presents a creative cuisine that pays tribute to French gastronomy. By taking over this historic venue, she seeks to write a new chapter for Le Normandie, where her culinary philosophy of Suffusion extends from the dishes to the drinks. Some of her signature creations, such as the Berlingots, are featured on the menu, along with reimagined dishes like the "Lobster Dashi with Red Fruits," which reflects both French culinary tradition and her deep affection for Asia.

THE CHINA HOUSE

BY CHEF FEI

Rooted in the heritage of Chaoshan and Cantonese cuisine, led by MICHELIN-starred Chef Fei, this refined dining experience offers a thoughtful expression of tradition in a richly storied setting.

The China House by Chef Fei presents the depth and nuance of Chaoshan (Teochew) and Cantonese cuisine, expressed with contemporary grace. Under the guidance of MICHELIN-starred Chef Fei, time-honoured flavours are shaped by precision, restraint and modern refinement.

At its heart lies the philosophy of Inheritance of Happiness - a living tradition carried through flavour, ritual and design. The menu complemented by a dedicated tea bar offering rare Chinese brews and ceremonial pairings that invite pause and connection.

The setting balances energy with intimacy. A central cocktail bar lends character and vibrancy, while refined seating and discreet private dining rooms create moments for focused conversation and meaningful celebration.

Mandarin Oriental, Bangkok works closely with local artisans, small businesses and cultural communities, thoughtfully weaving their stories into the guest experience with authenticity and respect. This philosophy also guides a broader commitment to sustainability - from reducing single-use plastics and managing waste with care, to recycling water for cooling towers, treating river water responsibly, and investing in renewable energy such as solar panels.

Organic waste is transformed into fertiliser for rural communities, supporting local farmers and livelihoods, while wider initiatives extend to river clean-up efforts and responsible resource management. Through long-standing community partnerships, including the Fantastic Fundraiser for the Baan Nokkamin Foundation, sustainability at Mandarin Oriental, Bangkok is a commitment to people, place and long-term positive impact.
