Wibe Group presents – Stago Installation system

Welcome into our new catalogue with aluminium, steel, and dedicated wiring devices to help you create installations with ease. Browse our selection and discover the power of efficiency and convenience.

Let's say hello, to one single solution, reimagined and engineered from the ground up, where cable management can be solved in one go. One streamlined system that allows for easy planning, easy procurement and easy installation.

One solution where all parts fit together.
One system, engineered from the ground up.
One provider, moving the industry forward.
One with nature, an environmentally conscious choice.

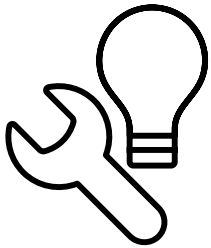

Curiosity meets innovation: Stago's uplifting solutions

Decades of expertise and close collaboration together with customers have made us a trusted partner in the industry.

Since our founding in the Netherlands in 1945, by the entrepreneurs, Tot and Beers which saw an opportunity to redevelop worn-out electrical equipment from the war, Stago has been driven by a passion for innovation, a curiosity for our customers needs, and an commitment to quality. With our developing, manufacturing, and delivering cable management systems, we continue to grow and provide top-quality solutions for our customers. Today, Stago is one of four brands within the Wibe Group, renowned for our innovative and high-quality cable management systems.

Customer collaboration is our priority - our team of experts are always here to give you friendly support at all times.

Stago Installation Systems

Easy to install

Our entire system has been designed with ease of use and ease of installation in mind. The improved solution adheres to industry standards, making sure that architects and engineers can easily work it into their designs. The click system makes the installation process fast and smooth.

The improved system is designed to fit together in a modern, aesthetic way. In addition, we have developed accessories which make it both forgiving and easy to work with, regardless of prior experience. Each part has been designed for a perfect fit, easy to install and to reconfigure.

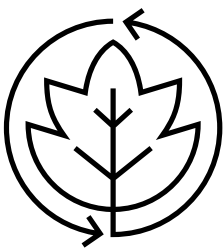

We always try to make life easier for our partners. And the world a little more Onederful.

Safe

Our wiring devices have earned the S-mark from Intertek to denote it meets the high safety standards in Europe. It can be used in any commercial building, warehouse, office, school, government building and hospital, as it provides a safe and flexible installation solution for any type of environment.

The socket outlets have been designed to make it impossible to reach the live wires with your fingers, making installation safer. Even if you remove the front cover from the socket outlet the system remains IP20. The wiring devices provide double insulated installation, meaning that no protective earth is required. The aluminium and steel trunking can be connected to functional earth if shielding of electrical fields is required/prescribed.

We hold ourselves to the highest standards of safety. But are always down to earth.

Improved impact on the environment

The entire system has been based upon our sustainable design principles. Minimizing waste, making sure we use as little energy and raw materials as possible, and by prioritizing reuse and modularity. Our aluminium parts are made from recycled aluminium, results in a CO₂ footprint that is 65% lower than the European average produced. And to the extent, if possible, we work with local suppliers and manufacturers to avoid unnecessary transportation.

A system based on our long term commitment to sustainability.

Reliable and experienced

Our new system draws on almost a 100-years of experience in the cable management industry. It has allowed us to create a solution that is easy to add to new and existing floor plans. We have designed a fully integrated system that will be launched over time. Having an optimized number of well-designed and smarter parts means simplifying the procurement, planning and installation process for any building project.

Drawn from experience. Designed for the future. And built on trust.

Quality products

We use the highest grade and most sustainable materials available. Putting our name on a product means that it has gone through rigorous testing and quality checks. And we set the same high standards for all our product offerings. Our products are made to withstand the test of both wear and time. The redesigned – one solution, one system approach – is us making a long-term commitment.

We ensure that spare parts will be made available for maintenance and replacement for as long as needed. Something that speaks to both the quality and sustainability of the efforts we are making. The system was designed from the get-go based upon the sustainable design principle. With total flexibility to be reconfigurable and to be able to accommodate changing needs, without having to change the entire system.

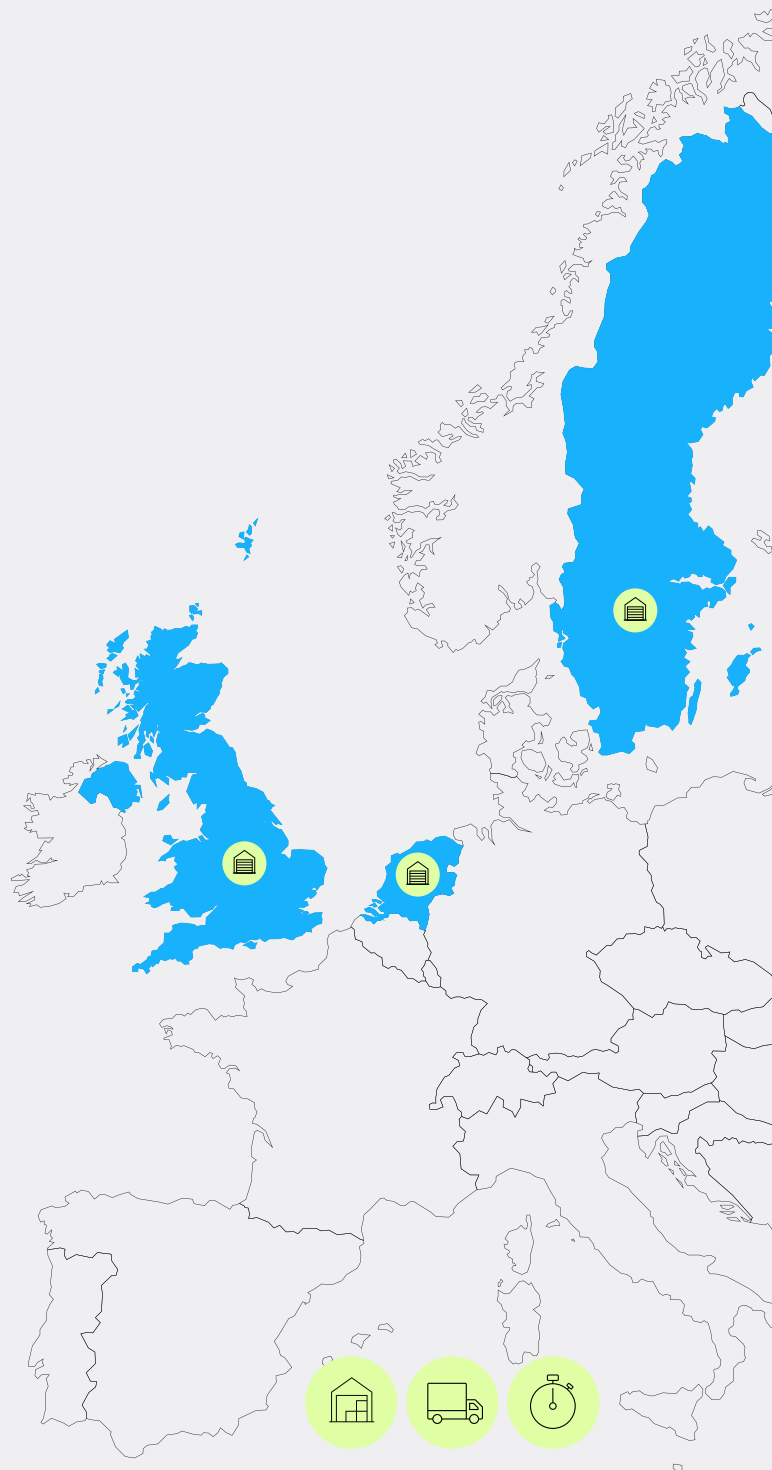

The highest quality through and through. Our way of working, and our promise to you.

Fast service

We pride ourselves on providing the best service possible to our clients, it has been part of the Wibe Group way of doing business since we started almost 100 years ago, and we are convinced that it will never go out of style. We are always just a phone call away – offering accessible, friendly, helpful, and proactive customer service whenever it is needed.

We believe in making timeless products, meaning that they won't run out of stock, or that they'll be gone the day after when you might need to complement your installation. Having our products in stock and readily available means reactive lead times and ease of procurement. We aim to work with local suppliers, to minimize time and cost for transportation and shipping – and to provide more flexibility when offer bespoke solutions.

We make sure that you get what you need, when you need it, for as long as you do.

24/7 Stock availability

Responsible business

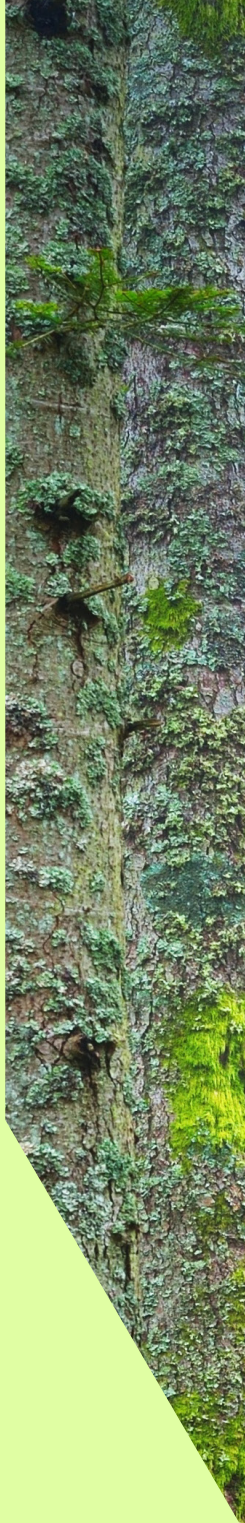

Wibe Group is a multinational company with operations in different parts of the world. We want to run a responsible business, by understanding and managing all effects in the value chain. We see it not only as a responsibility but also an opportunity to influence and drive sustainable development for our business and communities.

Our ambition is to take the lead in our industry. With a clear vision and long term commitment, we will get there.

In 2025, we received a Gold Sustainability Rating from EcoVadis, placing us in the top 5% of all companies in the world evaluated by EcoVadis, and top 1% of our industry segment. Join us on our journey to create sustainable solutions for generations to come!

Colour selection

Colours that surround us in our everyday life have a meaning that extends beyond mere aesthetics. They influence our experiences, behaviors and performance while helping us navigate our physical environment. Our colours are based on local habits and needs, and they represent our standard offer. By choosing timeless colours adapted to local habits, you get a sustainable investment.

Aluminium trunking – the perfect blend of high-performance and sustainability

With its timeless design, recycled aluminium, and total flexibility to be reconfigurable to accommodate changing needs; WGX-A stands out in our product range. If you're looking for an efficient wall trunking system that contributes to the circular economy, the WGX-A range is the perfect choice.

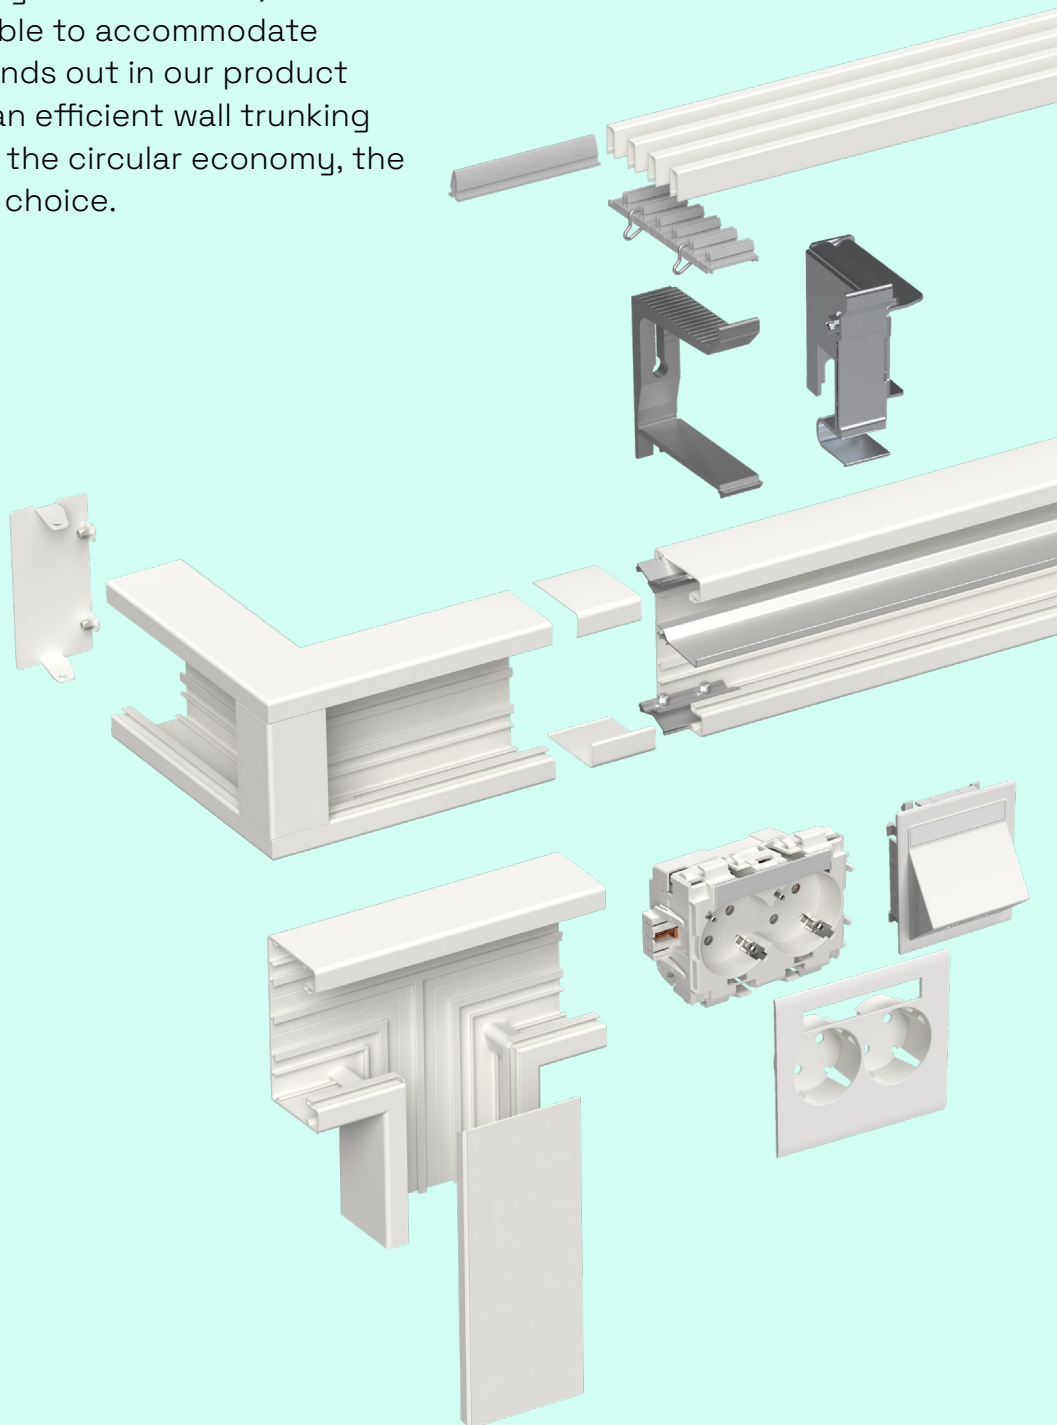

Timeless Design →

The system is designed to fit together in a modern, aesthetic way. WGX-A trunking offers a sleek look with its aluminium finish, available in Natural Anodized, White RAL9003 and Black RAL9017.

Material: Aluminium

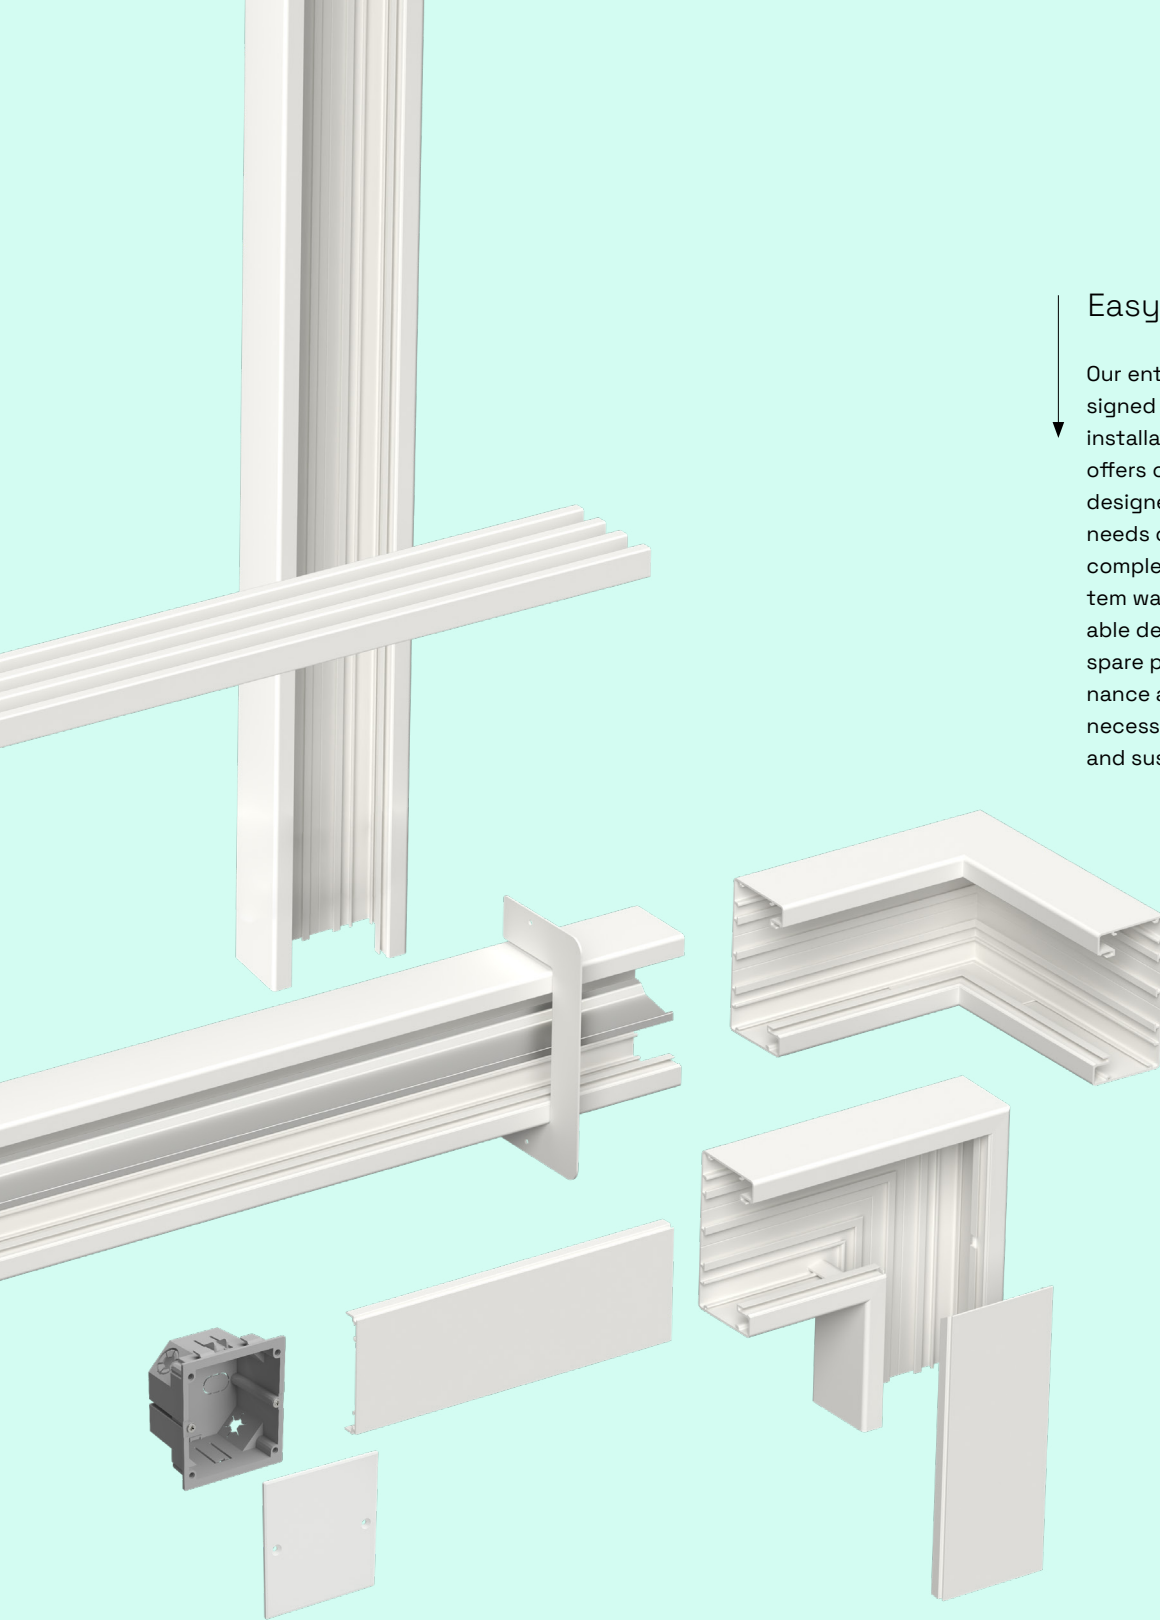

Available dimensions:

- WGX-A 110/55
- WGX-A 120/65
- WGX-A 120/72

Easy to Install

Our entire system has been designed with ease of use and ease of installation in mind. WGX-A trunking offers outstanding flexibility and is designed to accommodate changing needs over time without requiring a complete system overhaul. The system was created based on sustainable design principles, ensuring that spare parts are available for maintenance and replacement for as long as necessary, emphasizing both quality and sustainability.

A Sustainable Choice

We believe in designing sustainable products that are minimizing our environmental impact. With WGX-A, we use recycled aluminium, which reduces the CO₂ footprint by 65% compared to the European average produced.

65% CO₂
FOOTPRINT
REDUCTION

Stago WGX-A wall trunking

The lowest CO₂ footprint on the market

Recycled aluminium

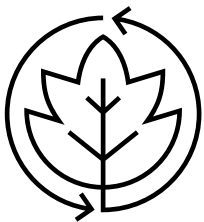

2.1 kg CO₂^[1]

← **WGX-A**

European average primary aluminium

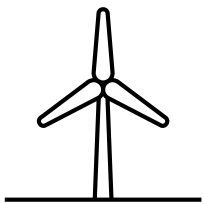

6.7 kg CO₂

1: GWP Total, source: EPD of WGX-A

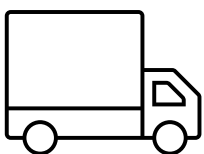

Minimizing waste

Our aluminium is 100% recycled from old consumer products and from production scrap material.

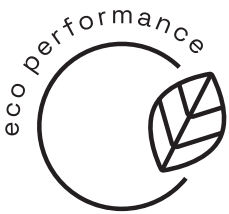

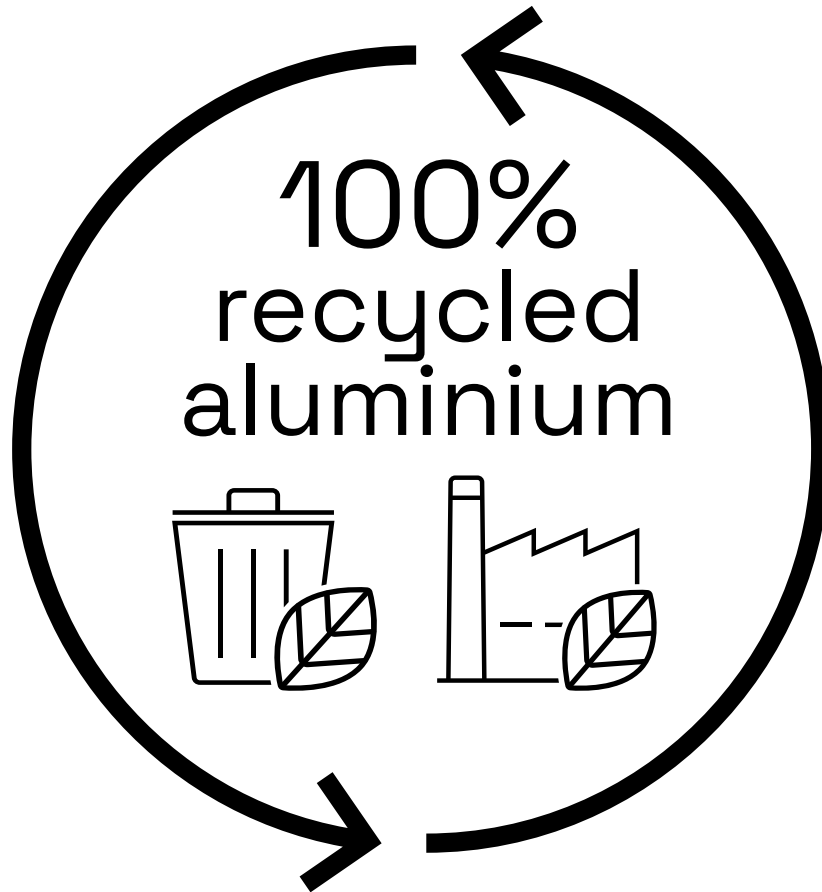

Minimizing energy consumption

The aluminium recycling process requires only 5% of the energy needed to produce primary aluminium, leading to significant CO₂ savings.

Produced in the Nordics

Stago WGX-A is produced locally in the Nordic region to minimize the distance of transportation.

Environmental Product Declarations (EPD)

EPDs for our entire product range are available for download on wibe-group.com/eco-performance

Circularity goes a long way

Compared to other aluminium wall trunking on the market, Stago WGX-A has the lowest CO₂ footprint by far.

Emissions are reduced by 65 percent when using recycled aluminium, compared to the European average emissions of primary aluminum production. From 6.7 to 2.1 kg of carbon dioxide equivalents. For an office building that needs 100 meters of wall trunking installed, the reduction corresponds to the emissions from driving 2,300 kilometers with a petrol car.

By choosing Stago WGX-A, you are making an active contribution to the circular economy.

Stago WGX-A 110/55

Trunking Base

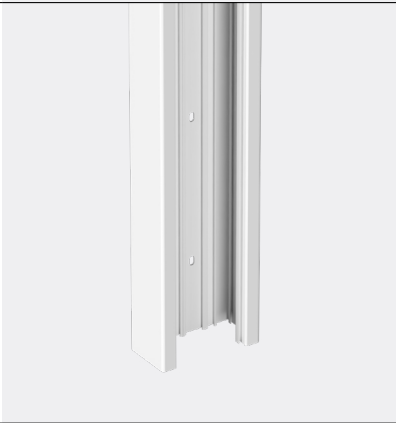

Trunking base in low carbon footprint aluminum. 80 mm front opening. Installs directly onto the wall. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80 mm front cover. Dimension: 110/55/2500 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520005	STA520006	STA520007
EAN code	7321679003479	7321679003486	7321679004018

Trunking base

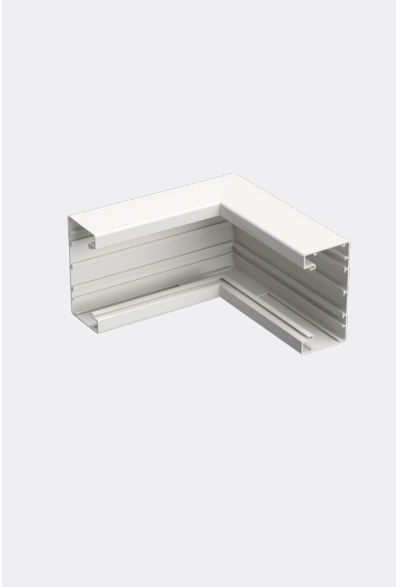

Trunking base in low carbon footprint aluminum. 80 mm front opening. Suitable for installation in vertical position, functionality as wall pole. Installs directly onto the wall. Available in powder coated in white or black colour. Use special front opening tool, to prevent damage when removing the 80 mm front cover. Dimension: 110/55/2700 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	
Ref no	STA520108	STA520109	
EAN code	7321679004957	7321679004964	

Inside corner

Inside corner with 80 mm front opening. Welded accessorie for perfect fit and ridgid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 110/55/200 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520051	STA520052	STA520053

Outside corner

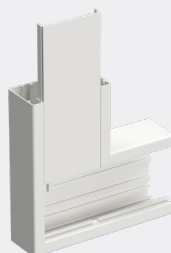

Outside corner with 80 mm front opening. 80 mm front cover piece included. Welded accessory for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 110/55/200 mm. Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520054	STA520055	STA520056
EAN code	7321679003356	7321679003349	7321679004322

L-piece

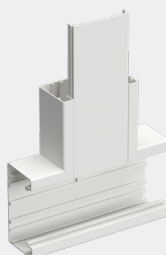

L-piece with 80 mm front opening. 80 mm front cover piece included. Welded accessory for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 110/55/200 mm. Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520057	STA520058	STA520059
EAN code	7321679003660	7321679003677	7321679004339

T-piece

T-piece with 80 mm front opening. 80 mm front cover piece included. Welded accessory for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 110/55/200 mm. Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520060	STA520061	STA520062
EAN code	7321679003684	7321679003691	7321679004346

End piece

End piece to cover the open ends of the trunking base. Installation with screws. Helps protect the installation, and prevents the trunking for being open towards combustible materials if installed on wood or wood fiber walls/ceilings. Dimension: 110/55/34 mm. Material: steel.

Colour	White RAL9003	Black RAL9017	Silver
Ref no	STA520063	STA520064	STA520065
EAN code	7321679003707	7321679003714	7321679004353

Front Cover

Low carbon footprint aluminium front cover for 80 mm front opening trunking base. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80mm front cover. If functional earth is required, use earth terminal and earth wire. Dimensions: 80/12/2500 mm. Material: aluminium.

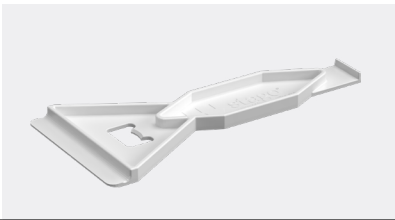

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520011	STA520012	STA520013
EAN code	7321679003493	7321679003509	7321679004056

Front opening tool

Tool for quick and gentle dismantling of front covers on trunking. Insert the tool into the slot between trunking and front cover and lever the front cover outwards.

Material: PLA

Ref no	STA520106
EAN code	7321679004933

Joint cover

Joint cover with self-adhesive tape. Covers the joint between trunking bases if the cut is not perfect, or there is a slight angle difference between the trunking bases. The joint cover piece needs two jointing pieces to be installed to function correct.

Sold in pairs.

Dimension: 17/55/45 mm.

Material: aluminium.

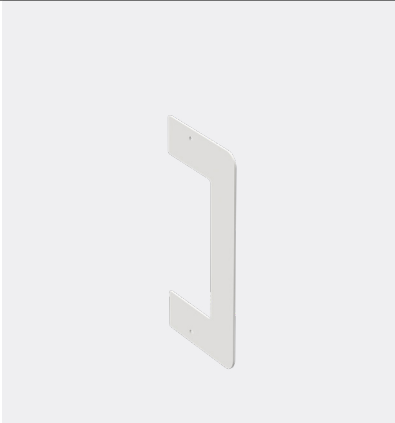

Colour	White RAL9003	Black RAL9017	Silver
Ref no	STA500050	STA500051	STA520066
EAN code	7321679003417	7321679003424	7321679004360

Wall frame

Wall frame in steel. When installing a trunking that passes through a partition wall, the wall frame is added to cover the hole in the wall. Adhesive tape on the back for easy installation. Mounted with screws (not included with the frame). Available in white, black or silver colour.

Dimension: 172/86/2 mm.

Material: steel.

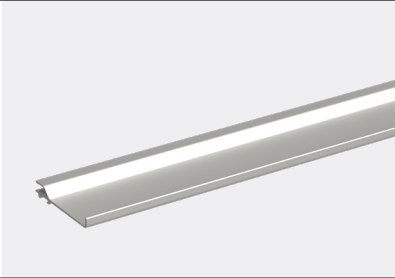

Colour	White RAL9003	Black RAL9017	Silver
Ref no	STA500052	STA500053	STA520116
EAN code	7321679003431	7321679003448	7321679005343

Cable shelf

Divides the trunking into two compartments, separating the power cables from the data cables. Up to 3 cable shelves can be used, to create a maximum of 4 compartments.

Dimension: 12/46/500 mm.

Material: aluminium.

Ref no	STA520105
EAN code	7321679004926

Jointing and earthing piece

Secures two pieces of trunking. Install by first clicking the Jointing and Earthing Piece into the Trunking (using your fingers or a flat screwdriver). Then fasten the screws using a cross-head screwdriver, to secure equipotential bonding. Sold in pairs.

Material: aluminium.

Ref no	STA520085
EAN code	7321679003721

Earthing wire

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref no	STA520086
EAN code	7321679003738

Main earth terminal

Dedicated screw secures tight earth connection. Installs very easy in the trunking base. Fits all Wibe Groups aluminium trunking bases.
Material: electroplated steel.

Ref no STA520097
EAN code 7321679003745

Earth terminal

Earth terminal for earthing of front cover and/or cable shelf. Installation by simply twisting into the 80 mm front cover. Use in combination with earthing wire.
Material: electroplated steel.

Ref no STA520098
EAN code 7321679003752

Stago WGX-A 120/65

Trunking Base

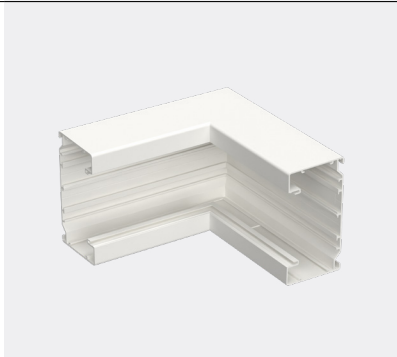

Trunking base in low carbon footprint aluminum. 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80 mm front cover. Dimension: 120/65/2500 mm. Material: aluminium.

		
Colour	White RAL9003	Black RAL9017
Ref no	STA520002	STA520003
EAN code	7321679003981	7321679003998

Inside corner

Inside corner with 80 mm front opening. Welded accessorie for perfect fit and ridgid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 120/65/200 mm. Material: aluminium.

L-piece

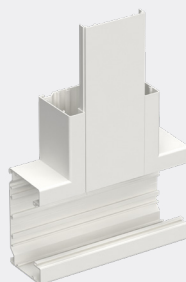

L-piece with 80 mm front opening.
80 mm front cover piece included.
Welded accessories for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request.
Dimension: 120/65/200 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017
Ref no	STA520041	STA520042
EAN code	7321679004216	7321679004223

T-piece

T-piece with 80 mm front opening.
80 mm front cover piece included.
Welded accessories for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request.
Dimension: 120/65/200 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017
Ref no	STA520044	STA520045
EAN code	7321679004247	7321679004254

End piece

End piece to cover the open ends of the trunking base. Installation with screws. Helps protect the installation, and prevents the trunking from being open towards combustible materials if installed on wood or wood fiber walls/ceilings. Available in black, white or silver colour.
Dimension: 120/65/34 mm.
Material: steel.

Colour	White RAL9003	Black RAL9017
Ref no	STA520047	STA520048
EAN code	7321679004278	7321679004285

Front Cover

Low carbon footprint aluminium front cover for 80 mm front opening trunking base. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80mm front cover. If functional earth is required, use earth terminal and earth wire.
Dimensions: 80/12/2500 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017
Ref no	STA520011	STA520012
EAN code	7321679003493	7321679003509

Front opening tool

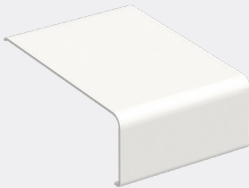

Tool for quick and gentle dismantling of front covers on trunking. Insert the tool into the slot between trunking and front cover and lever the front cover outwards.
Material: PLA

Ref no	STA520106
EAN code	7321679004933

Joint cover

Used when trunking is installed with wall brackets. Joint cover with self-adhesive tape and captive clamp. Covers the joint between trunking bases if the cut is not perfect, or there is a slight angle difference between the trunking bases. The joint cover piece needs two jointing pieces to be installed to function correct. Sold in pairs. Dimension: 17/65/45 mm. Material: aluminium.

		
Colour	White RAL9003	Black RAL9017
Ref no	STA500035	STA500036
EAN code	7321679003868	7321679003875

Wall frame

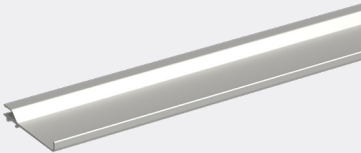

Wall frame in steel. When installing a trunking that passes through a partition wall, the wall frame is added to cover the hole in the wall. Adhesive tape on the back for easy installation. Mounted with screws (not included with the frame). Available in white, black or silver colour. Dimension: 184/96/2 mm. Material: steel.

		
Colour	White RAL9003	Black RAL9017
Ref no	STA500037	STA500038
EAN code	7321679003882	7321679003899

Cable shelf

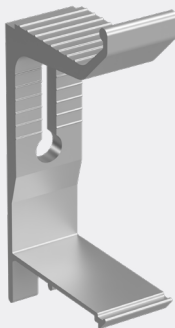

Divides the trunking into two compartments, separating the power cables from the data cables. Up to 3 cable shelves can be used, to create a maximum of 4 compartments. Dimension: 12/46/500 mm. Material: aluminium.

	
Ref no	STA520105
EAN code	7321679004926

Fixed wall bracket

Fixed wall bracket in six different depths. Since the fixed wall bracket is flat on the top surface, it can be used when installing marble, wood or other windowsill materials. It can also be used with our ventilation rib holder and ventilation ribs (from 1 to 6 ventilation ribs depending on model), to allow warm air from the radiator to reach the window. Material: aluminum.

			
Ref no	STA520110	STA500058	STA500059
EAN code	7321679004940	7321679003905	7321679003349

Vent.ribs	0	1	2

			
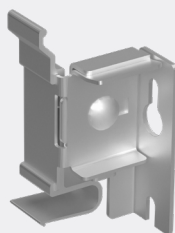

Ref no	STA500060	STA500061	STA500062
EAN code	7321679003356	7321679003363	7321679003312
Depth	79 mm	110 mm	123 mm
Vent.ribs	3	4	5

	
Ref no	STA500063
EAN code	7321679003929
Depth	146 mm
Vent.ribs	6

Adjustable wall bracket

Adjustable wall bracket in three different sizes. Since the adjustable wall bracket is flat on the top surface, it can be used when installing marble, wood or other window seal materials. It can also be used with our ventilation rib holder and ventilation ribs, to allow warm air from the radiator to reach the window.

Material: steel.

Ref no	STA500064	STA500065	STA500066
EAN code	7321679003936	7321679003943	7321679003950
Depth	50-70mm	70-110mm	110-170mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost.

Dimension: 15/34/125 mm.

Material: Plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder.

Material: steel.

Ref no	STA500071
EAN code	7321679003400

Ventilation rib

Allows the heat from the radiator to reach the window, and covers the gap between the wall/window and trunking. The trunking should never be installed directly above a radiator, regardless of material. Available in powder coated in white or black colour. Other optional colours available on request.

Dimensions: 20/10/2500 mm.

Material: aluminum.

Colour	White RAL9003	Black RAL9017
Ref no	STA500068	STA500069
EAN code	7321679003370	7321679003387

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click.

Dimension: 19/10/100 mm.

Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003394

Jointing and earthing piece

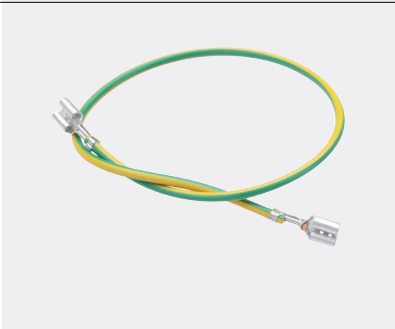

Secures two pieces of trunking. Install by first clicking the Jointing and Earthing Piece into the Trunking (using your fingers or a flat screwdriver). Then fasten the screws using a cross-head screwdriver, to secure equipotential bonding. Sold in pairs. Material: aluminium.

Ref no	STA520085
EAN code	7321679003721

Earthing wire

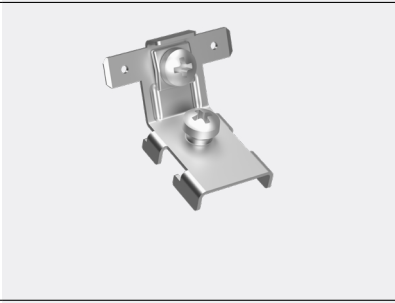

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref no	STA520086
EAN code	7321679003738

Main earth terminal

Dedicated screw secures tight earth connection. Installs very easy in the trunking base. Fits all Wibe Groups aluminium trunking bases. Material: electroplated steel.

Ref no	STA520097
EAN code	7321679003745

Earth terminal

Earth terminal for earthing of front cover. Installation by simply twisting into the 80 mm front cover. Use in combination with earthing wire. Material: electroplated steel.

Ref no	STA520098
EAN code	7321679003752

Stago WGX-A 120/72

Trunking Base

Trunking base in low carbon footprint aluminum. 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80 mm front cover. Dimension: 120/72/2500 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520000	STA520001	STA520004
EAN code	7321679003455	7321679003462	7321679004001

Inside corner

Inside corner with 80 mm front opening. Welded accessorie for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 120/72/200 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520019	STA520020	STA520021
EAN code	7321679003516	7321679003523	7321679004100

Outside corner

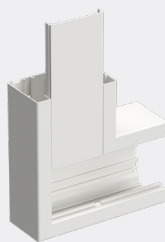

Outside corner with 80 mm front opening. 80 mm front cover piece included. Welded accessorie for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimension: 120/72/200 mm. Material: aluminium.

			
Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520022	STA520023	STA520024
EAN code	7321679003530	7321679003547	7321679004117

L-piece

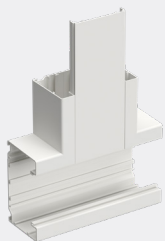

L-piece with 80 mm front opening.
80 mm front cover piece included.
Welded accessories for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request.
Dimension: 120/72/200 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520025	STA520026	STA520027
EAN code	7321679003554	7321679003561	7321679004124

T-piece

T-piece with 80 mm front opening.
80 mm front cover piece included.
Welded accessories for perfect fit and rigid installation. Connect to trunking profile with 4 jointing pieces in aluminium. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request.
Dimension: 120/72/200 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520028	STA520029	STA520030
EAN code	7321679003578	7321679003585	7321679004131

End piece

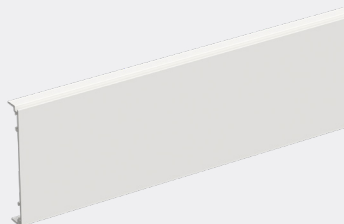

End piece to cover the open ends of the trunking base. Installation with screws. Helps protect the installation, and prevents the trunking from being open towards combustible materials if installed on wood or wood fiber walls/ceilings. Available in black, white or silver colour.
Dimension: 120/72/34 mm.
Material: steel.

Colour	White RAL9003	Black RAL9017	Silver
Ref no	STA520031	STA520032	STA520033
EAN code	7321679003592	7321679003608	7321679004148

Front Cover

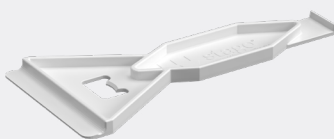

Low carbon footprint aluminium front cover for 80 mm front opening trunking base. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Use special front opening tool, to prevent damage when removing the 80mm front cover. If functional earth is required, use earth terminal and earth wire.
Dimensions: 80/12/2500 mm.
Material: aluminium.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA520011	STA520012	STA520013
EAN code	7321679003493	7321679003509	7321679004056

Front opening tool

Tool for quick and gentle dismantling of front covers on trunking. Insert the tool into the slot between trunking and front cover and lever the front cover outwards.
Material: PLA

Ref no	STA520106
EAN code	7321679004933

Joint cover

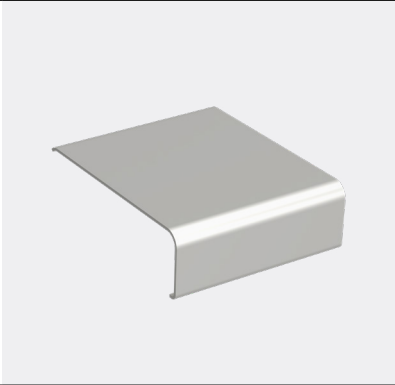

Used when trunking is installed with wall brackets. Joint cover with self-adhesive tape and captive clamp. Covers the joint between trunking bases if the cut is not perfect, or there is a slight angle difference between the trunking bases. The joint cover piece needs two jointing pieces to be installed to function correct. Sold in pairs.
Dimension: 17/72/45 mm.
Material: aluminium.

		
Colour	White RAL9003	Black RAL9017
Ref no	STA500020	STA500021
EAN code	7321679003295	7321679003301

Joint cover short

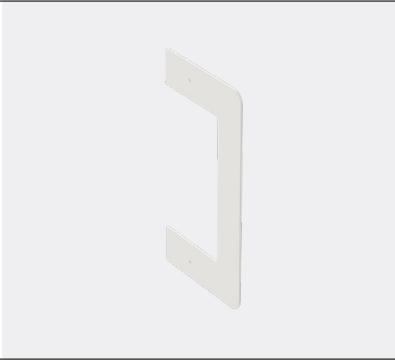

Used when trunking is installed directly onto the wall. Joint cover with self-adhesive tape. Covers the joint between trunking bases if the cut is not perfect, or there is a slight angle difference between the trunking bases. The joint cover piece needs two jointing pieces to be installed to function correct. Sold in pairs.
Dimension: 17/72/45 mm.
Material: aluminium.

	
Colour	Silver
Ref no	STA520101
EAN code	7321679004629

Wall frame

Wall frame in steel. When installing a trunking that passes through a partition wall, the wall frame is added to cover the hole in the wall. Adhesive tape on the back for easy installation. Mounted with screws (not included with the frame). Available in white, black or silver colour.
Dimension: 184/103/2 mm.
Material: steel.

			
Colour	White RAL9003	Black RAL9017	Silver
Ref no	STA520113	STA520114	STA520115
EAN code	7321679005312	7321679005329	7321679005336

Wall frame

The wall frame has a friction fit to the trunking. Additional double sided adhesive or glue can be used if needed. The wall frame covers the hole in the wall, but also gives a bit of tolerance to the length of the trunking. If the trunking is cut a bit short, the wall frame will take care of this.
Dimension: 190/140/35 mm.
Material: Plastic, halogen free.

		
Colour	White RAL9003	Black RAL9017
Ref no	STA500022	STA500023
EAN code	7321679003318	7321679003325

Cable shelf

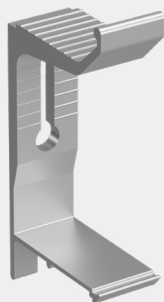

Divides the trunking into two compartments, separating the power cables from the data cables. Up to 3 cable shelves can be used, to create a maximum of 4 compartments.
Dimension: 12/65/500 mm.
Material: aluminium.

	
Ref no	STA520034
EAN code	7321679003615

Fixed wall bracket

Fixed wall bracket in three different depths. Since the fixed wallbracket is flat on the top surface, it can be used when installing marble, wood or other window seel materials. It can also be used with our ventilation rib holder and ventilation ribs, to allow warm air from the radiator to reach the window. Material: aluminum.

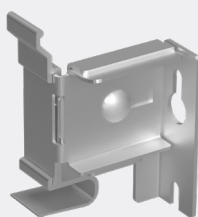

Ref no	STA520110	STA500058	STA500059
EAN code	7321679004940	7321679003905	7321679003349
Depth	15 mm	35 mm	56 mm
Vent.ribs	0	1	2

Ref no	STA500060	STA500061	STA500062
EAN code	7321679003356	7321679003363	7321679003912
Depth	79 mm	110 mm	123 mm
Vent.ribs	3	4	5

Ref no	STA500063
EAN code	7321679003929
Depth	146 mm
Vent.ribs	6

Adjustable wall bracket

Adjustable wall bracket in three different sizes. Since the adjustable wall bracket is flat on the top surface, it can be used when installing marble, wood or other window seel materials. It can also be used with our ventilation rib holder and ventilation ribs, to allow warm air from the radiator to reach the window. Material: steel.

Ref no	STA500064	STA500065	STA500066
EAN code	7321679003936	7321679003943	7321679003950
Depth	50-70mm	70-110mm	110-170mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: Plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder. Material: steel.

Ref no	STA500071
EAN code	7321679003400

Ventilation rib

Allows the heat from the radiator to reach the window, and covers the gap between the wall/window and trunking. The trunking should never be installed directly above a radiator, regardless of material. Available in powder coated in white or black colour, or natural anodized. Other optional colours available on request. Dimensions: 20/10/2500 mm. Material: aluminum.

Colour	White RAL9003	Black RAL9017	Natural anodized
Ref no	STA500068	STA500069	STA520091
EAN code	7321679003370	7321679003387	7321679004582

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click.
Dimension: 19/10/100 mm.
Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003394

Jointing and earthing piece

Secures two pieces of trunking. Install by first clicking the Jointing and Earthing Piece into the Trunking (using your fingers or a flat screwdriver). Then fasten the screws using a cross-head screwdriver, to secure equipotential bonding. Sold in pairs.
Material: aluminium.

Ref no	STA520085
EAN code	7321679003721

Earthing wire

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref no	STA520086
EAN code	7321679003738

Main earth terminal

Dedicated screw secures tight earth connection. Installs very easy in the trunking base. Fits all Wibe Groups aluminium trunking bases.
Material: electroplated steel.

Ref no	STA520097
EAN code	7321679003745

Earth terminal

Earth terminal for earthing of front cover. Installation by simply twisting into the 80 mm front cover. Use in combination with earthing wire.
Material: electroplated steel.

Ref no	STA520098
EAN code	7321679003752

Technical data

Standards	The products comply with the standards:
	EN 50085-1 & IEC 61084-1
	EN 50085-2/1 & IEC 61084-2/1
	"The products satisfy the provisions for CE marking according to the Low Voltage Directive 2014/35/EU."
"The products comply with the RoHS directive 2011/65 EU, REACH Directive 2006/1907 EU (Restriction of Hazardous Substances) "	

Material data

Aluminum	
Material	Recycled Aluminum EN AW – 6060 T6, 6061 T6, 6063 T6
Density	2.710 g/cm³
Surface treatment	Powder Coated
Colour Spec	White RAL9003
	Black RAL9017
	Natural Anodized
Plastic	
Material	PLA (Polylactic acid)
Density	1.25 g/cm³
Fire rating	Non-flame propagating ,650 °C, GWT as per IEC 60695-2-11
Colour Spec	White RAL9003
	Black RAL9017
	Silver
Steel	
Material	Pre-galvanized sheet steel in accordance with EN 10346 ,
Density	7.646 g/cm³
Surface treatment	Zinc coating, Powder coated
Colour spec	White RAL9003, Black RAL9017, Silver

Operative data

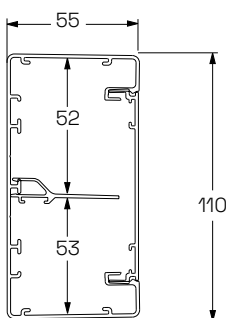

Temperature range	From -25°C to +60°C
Suitable outdoors	No
Degree of protection	IP20
Suitable for environmental Corrosion Class According to ISO 12944-2	C1, C2
Impedance of ducting length or trunking length	0.8 mΩ/m
Trunking access cover retention	Access cover can only be opened with a tool.
Non reusable fasteners	Joining & earthing piece (STA520085)
	Earth terminal for 80 mm front cover (STA520098)

One solution
where all parts
fit together

Steel trunking

– strong and versatile, built to last

Our WGX steel trunking is designed to provide a reliable and long-lasting installation system. Constructed from high-quality steel, this robust trunking offers unparalleled strength and durability, ensuring that your cables are well-protected in even the most demanding environments.

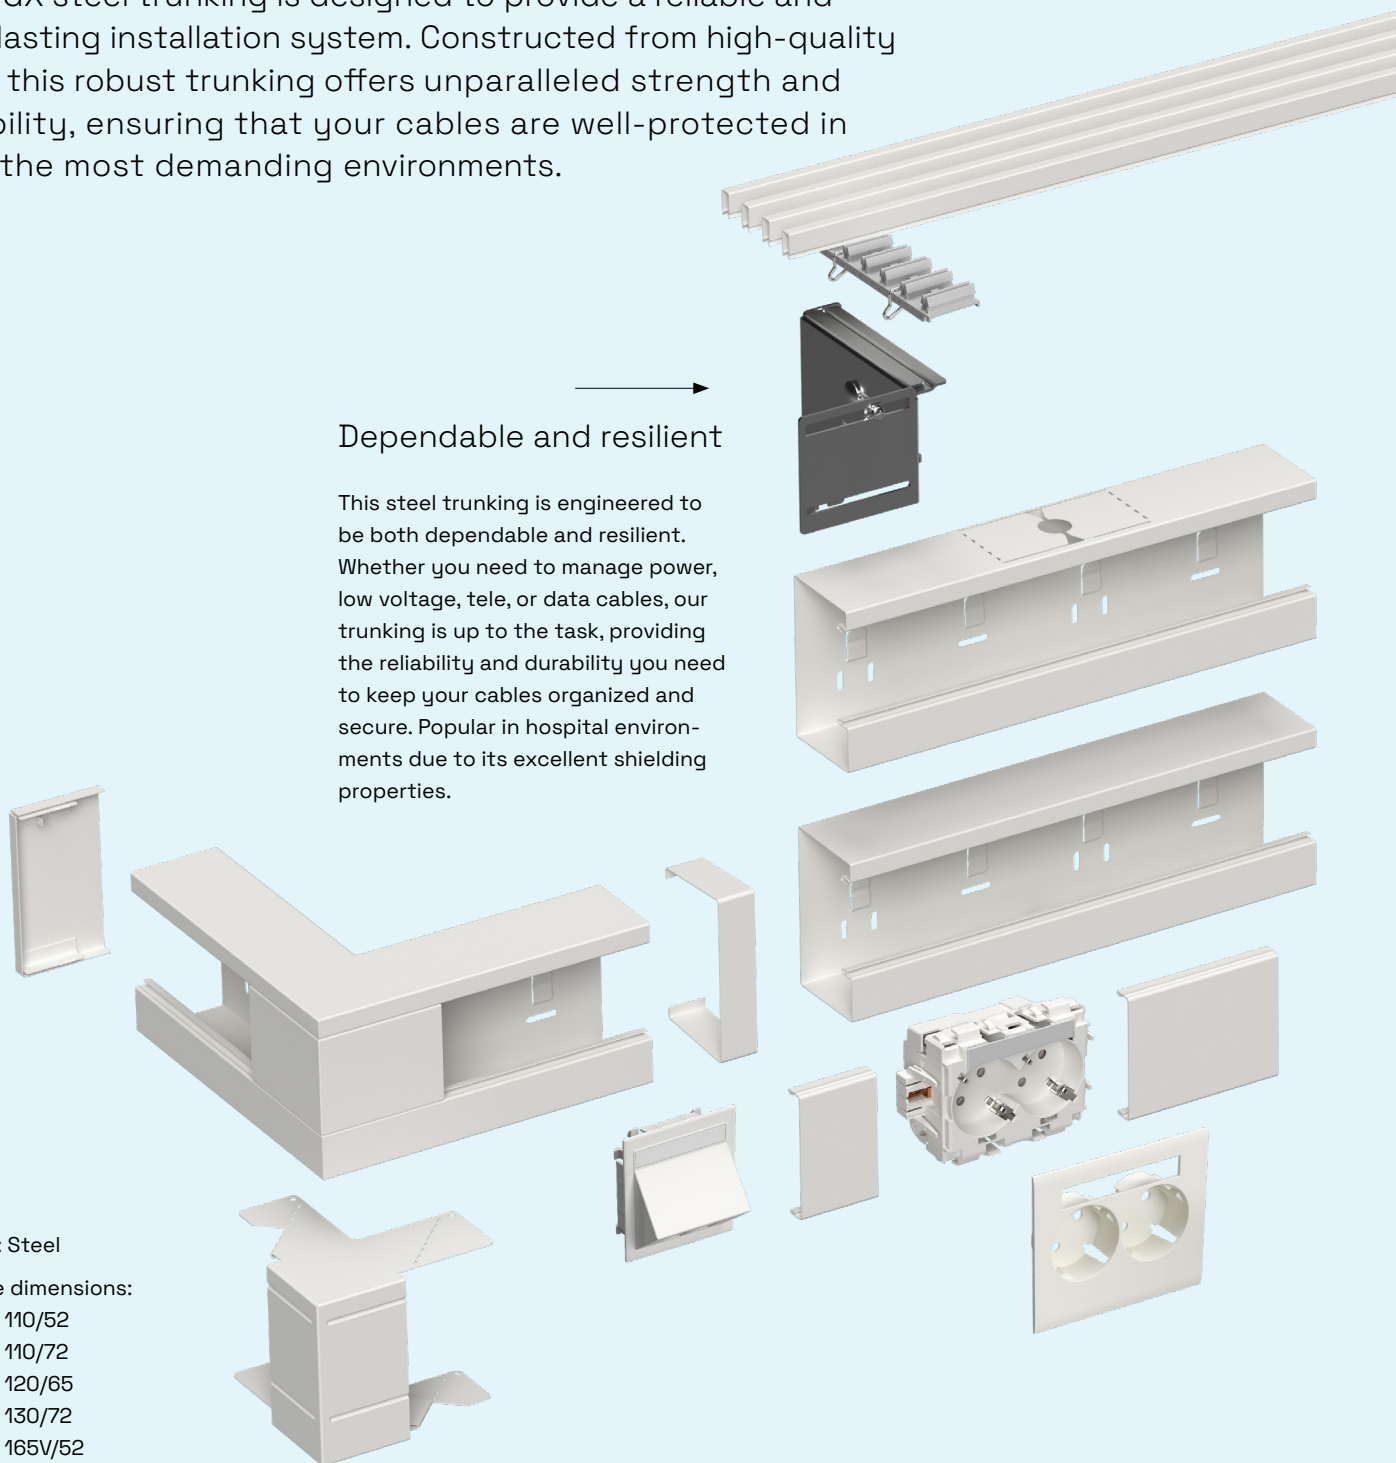

Dependable and resilient

This steel trunking is engineered to be both dependable and resilient. Whether you need to manage power, low voltage, tele, or data cables, our trunking is up to the task, providing the reliability and durability you need to keep your cables organized and secure. Popular in hospital environments due to its excellent shielding properties.

Material: Steel

Available dimensions:

- WGX 110/52
- WGX 110/72
- WGX 120/65
- WGX 130/72
- WGX 165V/52
- WGX 170/65
- WGX 170A/65
- WGX 170(A)/72
- WGX 183/72
- WGX 233/72

Versatile design

Our steel trunking is highly versatile, making it ideal for a wide range of applications. With a variety of sizes and configurations available, you can choose the perfect trunking to meet your unique needs. And it can be easily customized or modified as your requirements change.

Efficient and effective

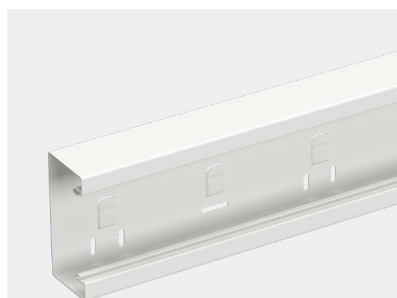

Our steel trunking is designed for efficiency and effectiveness. Thanks to its smart design and user-friendly features, you can quickly and easily install and maintain your installation system, ensuring that your business operates smoothly.

DURABILITY

Stago WGX 110/52

Trunking Base

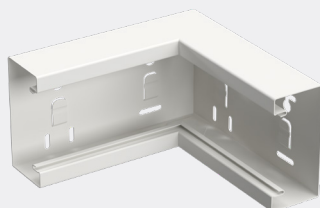

Steel trunking base with 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Powder coated. Dimension: 110/52/2500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550004	INS5550003	STA550071
EAN Code	8720871001075	7315880080701	8720871001174

Inside Corner

Inside corner with 80 mm front opening. Can be divided into compartments by cable shelves. To be used with sheet steel front cover. Dimension: 110/52/200 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550005	INS5550203	STA550069
EAN Code	8720871001082	7315880080725	8720871001150

External corner kit

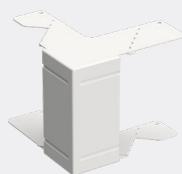

Outside corner with 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Dimension: 110/52/200 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550006	INS5550403	STA550073
EAN Code	8720871001099	7315880080749	8720871001198

Universal corner

Universal corner. Can be used both as internal and external corner. Dimension: 110/52 /130 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550001	INS5550103	STA550068
EAN Code	8720871001044	7315885550100	8720871001143

L-piece Kit Rise/Drop

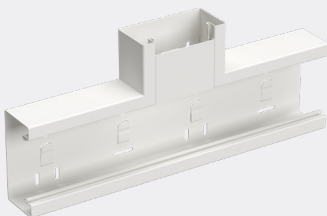

90° bend with 80 mm front opening. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Dimension: 250/52/250 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550007	INS5550503	STA550072
EAN Code	8720871001105	7315880080763	8720871001181

T-piece Kit

T-piece kit including sheet steel front cover. With 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Can be divided into compartments by cable shelves. 110/52/400 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550002	INS5550603	STA550070
EAN Code	8720871001051	7315880080787	8720871001167

Stop End

Stop end intended to cover the ends of the trunking base. Dimension: 110/52/11 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550008	INS5550803	STA550075
EAN Code	8720871001112	7315880080824	8720871001211

Cable shelf single 52 mm

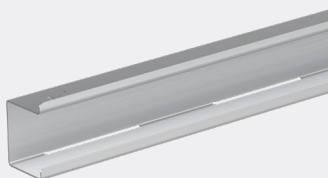

Single cable shelf, intended to divide the trunking into compartments. Dimension: 27/40/1000. Material: steel.

Material	Steel
Ref.nr.	5591730
EAN Code	7315880113355

Cable shelf double 52 mm

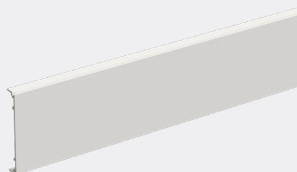

Cable shelf, double, intended to divide the trunking into compartments. Dimension: 41/33/1000 mm. Material: steel.

Material	Steel
Ref.nr.	5591733
EAN Code	7315885591738

Front cover 80 mm

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550066	INS5596003	STA550154
EAN Code	8720871002683	7315880097990	8720871002706

Outlet front cover 100 mm

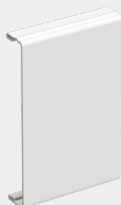

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550065	INS5596053	STA550155
EAN Code	8720871002676	3606480340789	8720871002713

Outlet front cover 50 mm

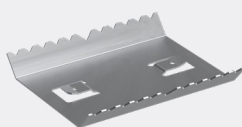

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/50 mm. Material: steel.

Ref.nr.	STA550067	5595107	STA550156
EAN Code	8720871002690	7315880098089	8720871002720

Jointing piece

Joint piece, intended to joint trunking base parts together and connect them to earth between trunking sections. Dimension: 60/51/7 mm. Material: steel.

Ref.nr.	5590930
EAN Code	7315885590939

Earth wire 300 mm

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

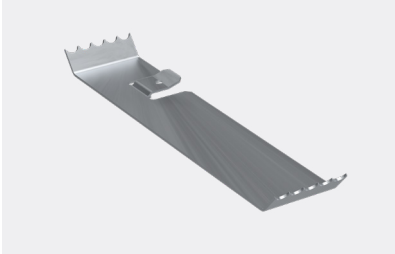

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation, Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	INS5510953
EAN Code	7321679004919

Earthing clamp cover

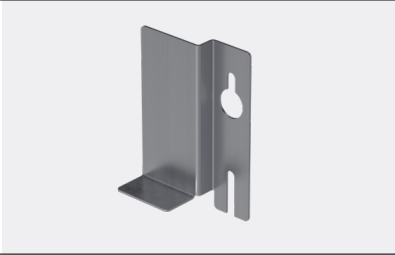

For earthing covers shorter than 100 mm. For 80 mm front cover. Dimensions: 79/5/16 mm. Material: stainless steel.

Ref.nr.	5590509
EAN Code	7315880098010

Wall bracket fixed Low

Fixed depth wall brackets for mounting at a distance from the wall. Low for up to 130 mm trunking. Two self-drilling screws are included to each product. Material: Steel.

Ref.nr.	INS55015	INS55035
EAN Code	3606489420543	3606489420550
Dimension	120/80/15 mm	120/80/35 mm

Wall brackets adjust Low

Adjustable wall bracket for mounting of trunking at a distance from the wall. For 110 and 130 mm high trunking. Material: steel.

Ref.nr.	5583510	5583512	5583514
EAN Code	7315885583511	7315880078647	7315880078654
Dimension	162/126/50	162/126/110	162/126/170
Adjust between	50-70 mm	70-110 mm	110-170 mm

Ref.nr.	5583516
EAN Code	7315880078661
Dimension	162/126/160
Adjust between	160-260 mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: PLA plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder. Dimension: 38/22 Ø2 mm.
Material: steel.

Ref no	STA500071
EAN code	7321679003400

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click. Dimension: 19/10/100 mm.
Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003608

Ventilation rib

Ventilation ribs. Dimension: 20/10/2500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550153	INS5590444	STA550152
EAN Code	8720871004717	8720871002652	8720871002751

Joint Cover piece

Joint cover piece, intended to cover joints between trunking sections.
Dimension: 110/52/30 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550009	5595203	STA550074
EAN Code	8720871001129	7315880084976	8720871001204

Wall Frame

Wall frame to be used to cover a trunking passage through the wall or to make an attractive finish of the trunking against a wall. Dimension: 110/52/11 mm. Material: Steel.

Colour	White RAL9003	White RAL9010	Black RAL9017

EAN Code	8720871001068	8720871001136	8720871001228

Stago WGX 110/72

Trunking Base

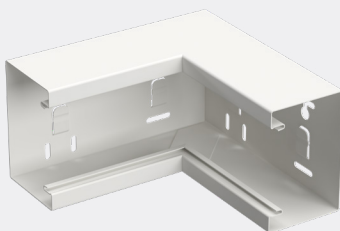

Steel trunking base with 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Powder coated. Dimension: 110/72/2500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550013	INS5550013	STA550080
EAN Code	8720871001266	7315880080848	8720871001365

Inside Corner

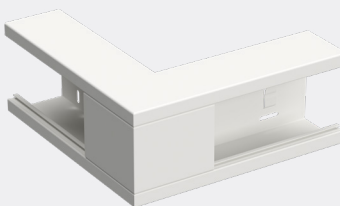

Inside corner with 80 mm front opening. Can be divided into compartments by cable shelves. To be used with sheet steel front cover. Dimension: 110/72/200 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550014	INS5550213	STA550078
EAN Code	8720871001273	7315880080862	8720871001341

Outside Corner kit

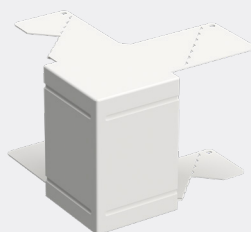

Outside corner with 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Dimension: 110/72/200 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550015	INS5550413	STA550082
EAN Code	8720871001280	7315880080886	8720871001389

Universal Corner

Universal corner. Can be used both as internal and external corner. Dimension: 110/72 /150 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550010	INS5550123	STA550077
EAN Code	8720871001235	7315885550124	8720871001334

L-piece kit rise/drop

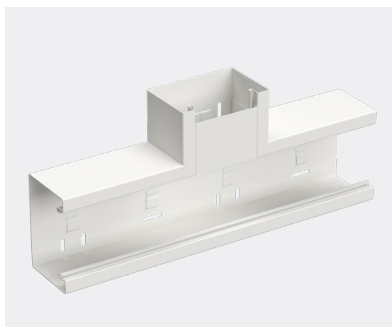

90° bend with 80 mm front opening. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Available as riser or dropper. Dimension: 250/72/250 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550016	INS5550513	STA550081
EAN Code	8720871001297	7315880080909	8720871001372

T-piece kit

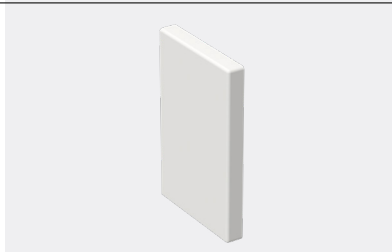

T-piece kit including sheet steel front cover. With 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Can be divided into compartments by cable shelves.
Dimension: 110/72 /400 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550011	INS5550613	STA550079
EAN Code	8720871001242	7315880080923	8720871001358

Stop End

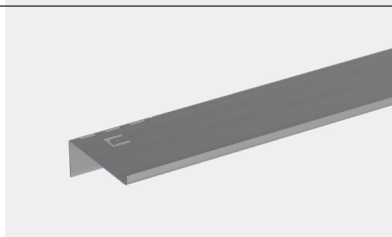

Stop end intended to cover the ends of the trunking base. Available as left-hand and right-hand for some of the trunking sizes.
Dimension: 110/72/11 mm.
Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550017	INS5550813	STA550084
EAN Code	8720871001303	7315880080961	8720871001402

Cable shelf single 72 mm

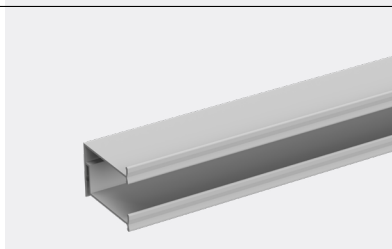

Single cable shelf, intended to divide the trunking into compartments.
Dimension: 27/60/1000 mm. Material: steel.

Material	Steel
Ref.nr.	5591740
EAN Code	7315885591745

Cable shelf double 72 mm

Cable shelf, double, intended to divide the trunking into compartments.
Dimension (steel): 41/52/1000 mm.
Dimension (PVC): 49/61/500 mm.

Material	Steel	PVC
Ref.nr.	5591743	5591720
EAN Code	7315880113362	7315885591721

Front cover 80 mm

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017

EAN Code	7315880080640

Earth wire 300 mm

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

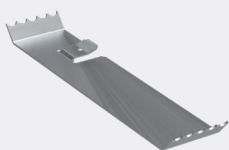

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation. Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	INS5510953
EAN Code	7321679004919

Earthing clamp cover

For earthing covers shorter than 100 mm.
For 80 mm front cover.
Dimensions: 79/5/16.
Material: stainless steel.

Ref.nr.	5590509
EAN Code	7315880098010

Wall brackets adjust

Adjustable wall bracket for mounting of trunking at a distance from the wall. Suitable for steel trunking 120/65, 170/65, 170A/65.

Ref.nr.	5583550	5583552	5583554	5583556	5583558
EAN Code	7315885583559	7315880083931	7315880083948	7315880083955	7315880083962
Dimension	162/126/50	162/126/70	162/126/110	162/126/160	162/126/250
Adjust between	50-70 mm	70-110 mm	110-170 mm	160-260 mm	250-400 mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: PLA plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder. Dimension: 38/22 Ø2 mm. Material: steel.

Ref no	STA500071
EAN code	7321679003400

Ventilation rib jointing piece

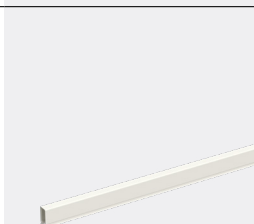

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click. Dimension: 19/10/100 mm. Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003608

Ventilation rib

Ventilation ribs. Dimension: 20/10/2500 mm. Material: steel.

Inside Corner

Inside corner with 80 mm front opening. Can be divided into compartments by cable shelves. To be used with sheet steel front cover. Dimension: 170/65/200 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553203	STA550119
EAN Code	7315880080244	8720871002171

Inside Corner adjust

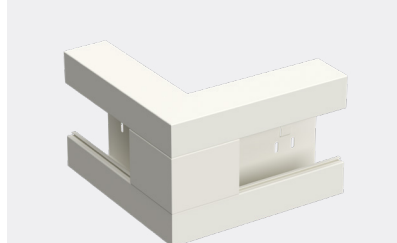

Adjustable internal corner with 80 mm front opening. To be used to fit together two trunking bases that form a certain angle. Dimension: 170/65/115 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553303	STA550124
EAN Code	7315880080305	8720871002225

Outside Corner kit

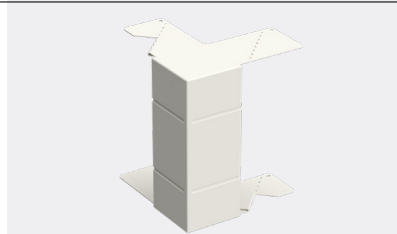

Outside corner with 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Dimension: 170/65/200 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553403	STA550123
EAN Code	7315880080183	8720871002218

Universal Corner

Universal corner. Can be used both as internal and external corner. Dimension: 170/65 /145 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553109	STA550118
EAN Code	7315880113706	8720871002164

L-piece kit rise/drop

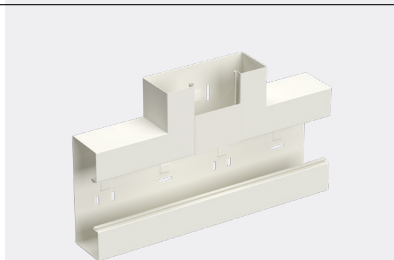

90° bend with 80 mm front opening.
Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Available as riser or dropper. Dimension: 250/65/250 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553503	STA550122
EAN Code	7315880080367	8720871002201

T-piece kit

T-piece kit including sheet steel front cover. With 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Can be divided into compartments by cable shelves. 170/65/400 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553603	STA550120
EAN Code	3606480340468	8720871002188

End piece

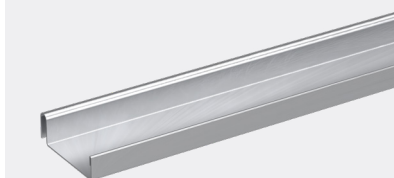

Stop end intended to cover the ends of the trunking base. Dimension: 170/65/10 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553803	STA550126
EAN Code	3606480340536	8720871002249

Cable shelf 65 mm single/double

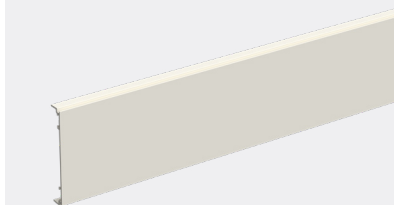

Cable shelf, single or double, intended to divide the trunking into compartments. Material: Steel.

Shelf	Single	Double
Ref.nr.	INS5596100	INS5596110
EAN Code	7315885596108	7315885596115
Dimension	19/55/1500 mm	40/45/1500 mm

Front cover 80 mm

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5596003	STA550154
EAN Code	7315880097990	8720871002706

Outlet front cover 100 mm

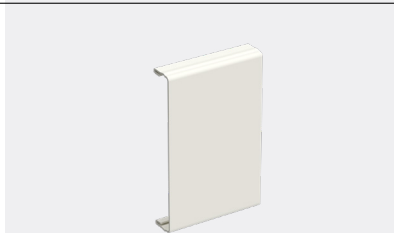

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
ref nr	INS5596053	STA550155
EAN Code	3606480340789	8720871002713

Outlet front cover 50 mm

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/50 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
ref nr	5595107	STA550156
EAN Code	7315880098089	8720871002720

Joining piece

Joining piece intended to joint trunking base parts together and connect them to earth. Provided with punched earthing clips. Dimension: 8/65/60 mm. Material: Stainless steel.

Colour	Unpainted
Ref.nr.	INS5596240
EAN Code	7315880080640

Earth wire 300 mm

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

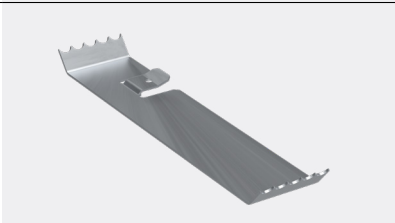

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation, Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	INS5510953
EAN Code	7321679004919

Earthing clamp cover

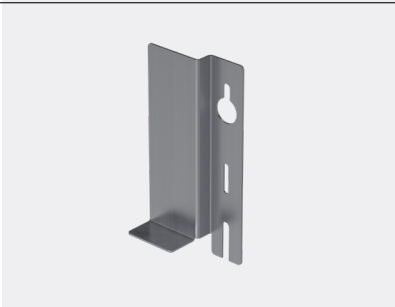

For earthing covers shorter than 100 mm. For 80 mm front cover. Dimensions: 79/5/16. Material: stainless steel.

Ref.nr.	5590509
EAN Code	7315880098010

Wall bracket fixed High

Fixed depth wall brackets for mounting at a distance from the wall. High for trunking higher than 130 mm. Two self-drilling screws are included to each product. Material: Steel, unpainted.

Ref.nr.	INS55016	INS55036
EAN Code	3606489513610	3606489513627
Dimension	120/80/15 mm	120/80/35 mm

Wall brackets adjust

Adjustable wall bracket for mounting of trunking at a distance from the wall. Suitable for steel trunking 120/65, 170/65, 170A/65.

Ref.nr.	5583550	5583552	5583554
EAN Code	7315885583559	7315880083931	7315880083948
Dimension	162/126/50	162/126/70	162/126/110
Adjust between	50-70 mm	70-110 mm	110-170 mm
Ref.nr.	5583556	5583558	
EAN Code	7315880083955	7315880083962	
Dimension	162/126/160	162/126/250	
Adjust between	160-260 mm	250-400 mm	

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: PLA plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder. Dimension: 38/22 Ø2 mm. Material: steel.

Ref no	STA500071
EAN code	7321679003400

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click. Dimension: 19/10/100 mm. Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003608

Ventilation rib

Ventilation ribs. Dimension: 20/10/2500 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5590444	STA550152
EAN Code	8720871002652	8720871002751

Wall frame

Wall frame to be used to cover a trunking passage through the wall or to make an attractive finish of the trunking against a wall. Dimension: 220/90/10 mm. Material: PVC.

Colour	White RAL9010	White RAL1013
Ref.nr.	INS19161770	INS19161700
EAN Code	8712186019265	8712186019258

Joint Cover piece

Joint cover piece, intended to cover joints between trunking sections. Dimension: 170/65/30 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	5595303	STA550125
EAN Code	7315880085232	8720871002232

Wall Frame

Wall frame to be used to cover a trunking passage through the wall or to make an attractive finish of the trunking against a wall. Dimension: 232/96/1.5 mm. Material: steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	STA550185	STA550128
EAN Code	8720871002157	8720871002263

Saw support

Saw support/cutting jig for easy cutting of the trunking length. Dimension: 170/65/- Material: Wood.

Ref.nr.	INS5596231
EAN Code	7315880080626

Stago WGX 170A/65

Trunking Base

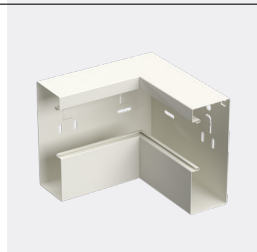

Steel trunking base with 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Powder coated. Dimension: 170/65/3000 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553013	STA550131
EAN Code	7315880080084	8720871002300

Inside Corner

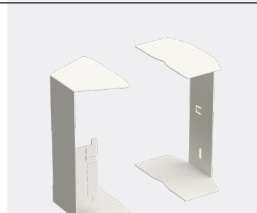

Inside corner with 80 mm front opening. Can be divided into compartments by cable shelves. To be used with sheet steel front cover. Dimension: 170/65/200 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553213	STA550129
EAN Code	7315880080268	8720871002287

Inside Corner adjust

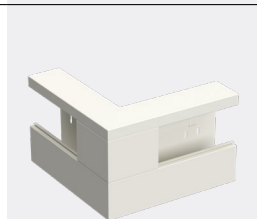

Adjustable internal corner with 80 mm front opening. To be used to fit together two trunking bases that form a certain angle. Dimension: 170/65/115 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553313	STA550137
EAN Code	7315880080329	8720871002362

Outside Corner kit

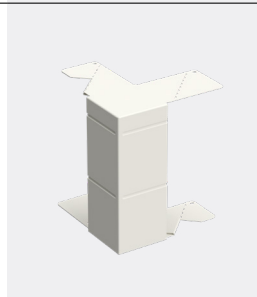

Outside corner with 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Dimension: 170/65/200 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553413	STA550138
EAN Code	7315880080206	8720871002355

Universal Corner

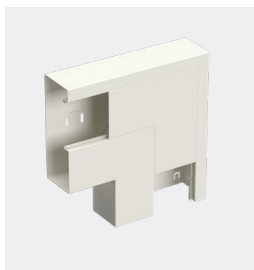

Universal corner. Can be used both as internal and external corner. Dimension: 170/65/145 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553102	STA550138
EAN Code	7315880113676	8720871002399

L-piece kit dropper

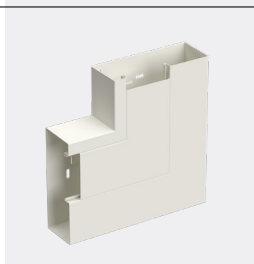

90° bend with 80 mm front opening.
Dropper. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Dimension: 250/65/250 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553519	STA550133
EAN Code	7315880080411	8720871002324

L-piece kit riser

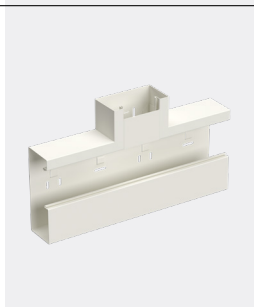

90° bend with 80 mm front opening.
Riser. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Dimension: 250/65/250 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553513	STA550132
EAN Code	7315880080381	8720871002317

T-piece kit

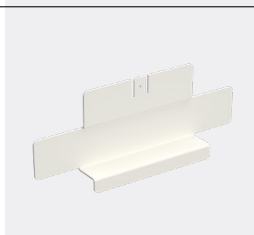

T-piece kit including sheet steel front cover. With 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Can be divided into compartments by cable shelves. 170/65/400 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553613	STA550130
EAN Code	3606480340475	8720871002294

Universal T-piece 120

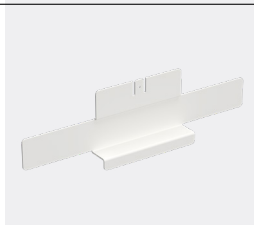

Universal T-piece suitable for horizontal trunking 170A and vertical trunking 120 or 170, when used as a feeder. Dimension: 48/16/120 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550019	INS38050074	STA550086
EAN Code	*8720871001433	8712186108983	8720871001563

Universal T-piece 170

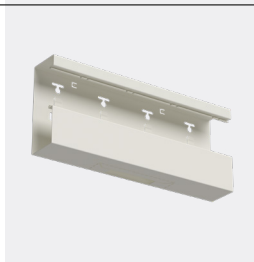

Universal T-piece suitable for horizontal trunking 170A and vertical trunking 120 or 170, when used as a feeder. Dimension: 48/16/120mm. Material: steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS38051774	STA550151
EAN Code	8712186109102	8720871001037

Branching piece down asym

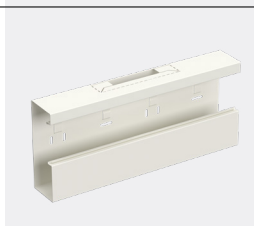

Asymmetrical branching piece, used for connection of feeder trunking 170x40 mm to the trunking base. Available as downward. Dimensions: 170/65/400 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553719	STA550135
EAN Code	7315880080664	8720871002348

Branching Piece up asym

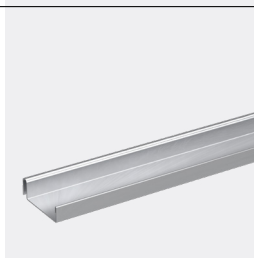

Asymmetrical branching piece, used for connection of feeder trunking 170x40 mm to the trunking base. Available as upward. Dimensions: 170/65/400 mm. Material: Steel.

Colour	White RAL9010	Black RAL9017
Ref.nr.	INS5553713	STA550134
EAN Code	3606480340505	8720871002331

Cable shelf 65 mm single/double

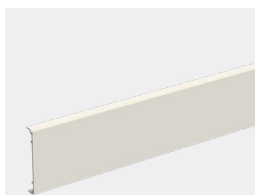

Cable shelf, single or double, intended to divide the trunking into compartments. Material: Steel.

Shelf	Single	Double
Ref.nr.	INS5596100	INS5596110
EAN Code	7315885596108	7315885596115
Dimension	19/55/1500	40/45/1500

Front cover 80 mm

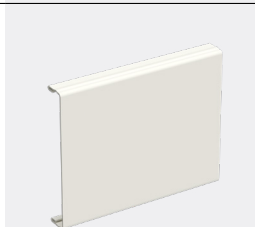

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	 White RAL9010	 Black RAL9017
Ref.nr.	INS5596003	STA550154
EAN Code	7315880097990	8720871002706

Outlet front cover 100 mm

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	 White RAL9010	 Black RAL9017
Ref.nr.	INS5596053	STA550155
EAN Code	3606480340789	8720871002713

Outlet front cover 50 mm

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/50 mm. Material: steel.

Colour	 White RAL9010	 Black RAL9017
Ref.nr.	5595107	STA550156
EAN Code	7315880098089	8720871002720

Jointing piece

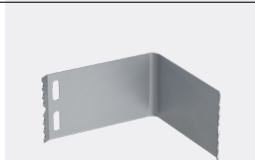

Jointing piece intended to joint trunking base parts together and connect them to earth. Provided with punched earthing clips. Dimension: 8/65/60 mm. Material: steel.

Colour	 Unpainted
Ref.nr.	INS5596240
EAN Code	7315880080640

Jointing piece

Jointing piece intended to joint trunking base parts together and connect them to earth. Provided with punched earthing clips. Dimension: 69/38/63 mm. Material: Steel.

Colour	 Unpainted
Ref.nr.	INS5596241
EAN Code	7315885596245

Earth wire 300 mm

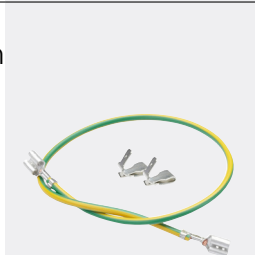

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	 STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

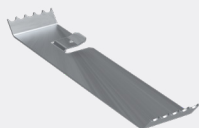

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation. Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	 INS5510953
EAN Code	7321679004919

Earthing clamp cover

For earthing covers shorter than 100 mm. For 80 mm front cover.
Dimensions: 79/5/16. Material: stainless steel.

Ref.nr.	5590509
EAN Code	7315880098010

Wall bracket fixed High

Fixed depth wall brackets for mounting at a distance from the wall.
High for trunking higher than 130 mm.
Two self-drilling screws are included to each product. Material: Steel, unpainted.

Ref.nr.	INS55016	INS55036

EAN Code	8720871002485	3606480340543	8720871002621

Cable shelf single 72 mm

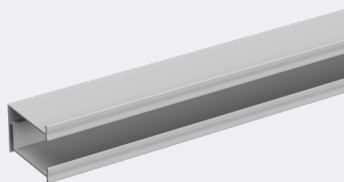

Single cable shelf, intended to divide the trunking into compartments. Dimension: 27/60/1000 mm. Material: steel.

Material	Steel
Ref.nr.	5591740
EAN Code	7315885591745

Cable shelf double 72 mm

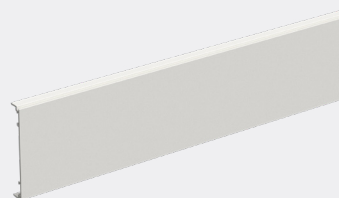

Cable shelf, double, intended to divide the trunking into compartments. Dimension (steel): 41/52/1000 mm. Dimension (PVC): 49/61/500 mm.

Material	Steel	PVC
Ref.nr.	5591743	5591720
EAN Code	7315880113362	7315885591721

Front cover 80 mm

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550066	INS5596003	STA550154
EAN Code	8720871002683	7315880097990	8720871002706

Outlet front cover 100 mm

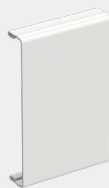

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550065	INS5596053	STA550155
EAN Code	8720871002676	3606480340789	8720871002713

Outlet front cover 50 mm

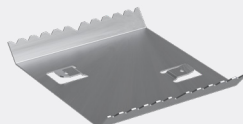

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/50 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550067	5595107	STA550156
EAN Code	8720871002690	7315880098089	8720871002720

Jointing piece

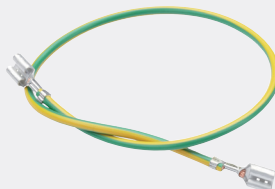

Joint piece, intended to joint trunking base parts together and connect them to earth between trunking sections. Dimension: 60/71/7 mm. Material: steel.

Ref.nr.	5590935
EAN Code	7315880066026

Earth wire 300 mm

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

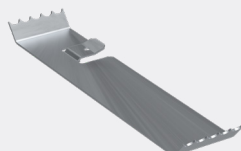

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation. Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	INS5510953
EAN Code	7321679004919

Earthing clamp cover

For earthing covers shorter than 100 mm. For 80 mm front cover. Dimensions: 79/5/16. Material: stainless steel.

Ref.nr.	5590509
EAN Code	7315880098010

Wall bracket fixed High

Fixed depth wall brackets for mounting at a distance from the wall. High for trunking higher than 130 mm. Two self-drilling screws are included to each product. Material: Steel, unpainted.

Ref.nr.	INS55016	INS55036
EAN Code	3606489513610	3606489513627
Dimension	120/80/15 mm	120/80/35 mm

Wall brackets adjust High

Adjustable wall bracket for mounting of trunking at a distance from the wall. For trunking higher than 130 mm. Material: steel.

Ref.nr.	5583530	5583532
EAN Code	7315885583535	7315880078685
Dimension	102/126/50	102/126/70
Adjust between	50-70 mm	70-110 mm
Ref.nr.	5583534	5583536
EAN Code	7315880078692	7315880078708
Dimension	102/126/110	102/126/160
Adjust between	110-170 mm	160-260 mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: PLA plastic, halogen free.

Ref no STA500057
EAN code 7321679003660

Ventilation rib clip

The clip secures the ventilation rib holder. Dimension: 38/22 Ø2 mm. Material: steel.

Ref no STA500071
EAN code 7321679003400

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click. Dimension: 19/10/100 mm. Material: PLA plastic, halogen free.

Ref no STA500070
EAN code 7321679003608

Ventilation rib

Ventilation ribs. Dimension: 20/10/2500 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550153	INS5590444	STA550152
EAN Code	8720871004717	8720871002652	8720871002751

Joint Cover piece

Joint cover piece, intended to cover joints between trunking sections. Dimension: 170/72/30 mm. Material: steel.

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550061	5595308	STA550149
EAN Code	8720871002492	7315880085270	8720871002614

Wall Frame

Wall frame to be used to cover a trunking passage through the wall or to make an attractive finish of the trunking against a wall. Dimension: 232/102/1.5 mm. Material: steel.

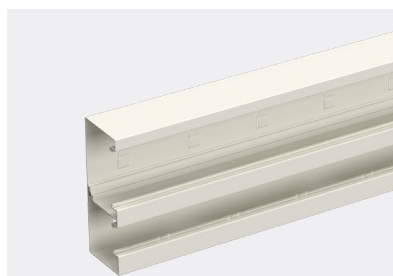

Colour	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA550054	STA550187	STA550140
EAN Code	8720871002423	8720871002515	8720871002522

Stago WGX 183/72

Trunking Base

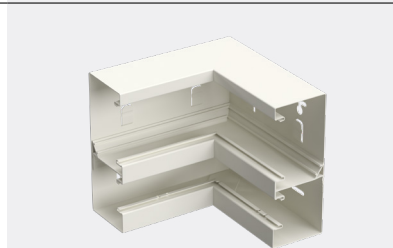

Steel trunking base with 40 and 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Powder coated. Dimension: 183/72/2500 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555003
EAN Code	7315880082231

Inside Corner

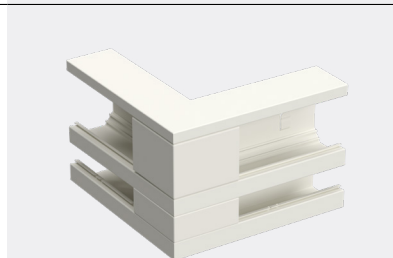

Inside corner with 40 mm and 80 mm front opening. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. To be used with sheet steel front cover. Dimension: 183/72/200 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555203
EAN Code	7315880082255

Outside Corner

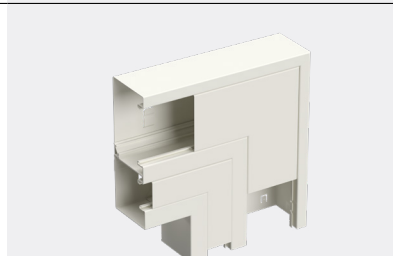

Outside corner with 40 mm and 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 183/72/200 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555403
EAN Code	7315880082279

L-piece kit dropper

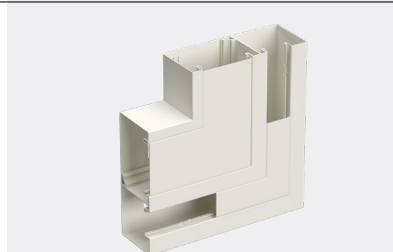

90° bend with 40 mm and 80 mm front opening. Dropper. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 250/72/250 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555505
EAN Code	3606480340727

L-piece kit riser

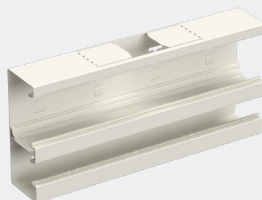

90° bend with 40 mm and 80 mm front opening. Riser. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 250/72/250 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555503
EAN Code	3606480340710

T-piece riser

T-piece with 40 mm and 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Dropper. Can be divided into compartments by cable shelves. Integrated and removable partition wall, provided with pre-punched holes, included. To be used with sheet steel front cover. Dimension: 183/72/400 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555603
EAN Code	7315880082347

End piece

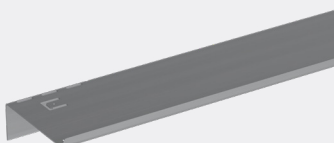

Stop end intended to cover the ends of the trunking base. Dimension: 183/72/11 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5555803
EAN Code	3606480340758

Cable shelf single 72 mm

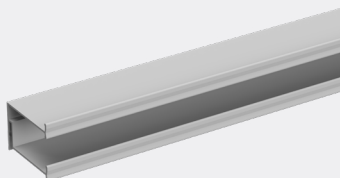

Single cable shelf, intended to divide the trunking into compartments. Dimension: 27/60/1000 mm. Material: steel. .

Material	Steel
Ref.nr.	5591740
EAN Code	7315885591745

Cable shelf double 72 mm

Cable shelf, double, intended to divide the trunking into compartments. Dimension (steel): 41/52/1000 mm. Dimension (PVC): 49/61/500 mm.

Material	Steel	PVC
Ref.nr.	5591743	5591720
EAN Code	7315880113362	7315885591721

Front cover 40 mm

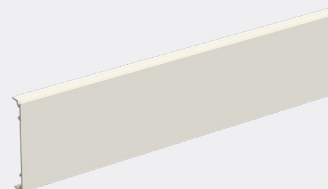

Front cover for the 40 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 40/12.7/1500 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5596019
EAN Code	7315880098164

Front cover 80 mm

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9010
Ref.nr.	INS5596003
EAN Code	7315880097990

Outlet front cover 100 mm

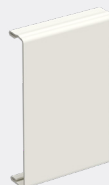

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	White RAL9010
Ref.nr.	INS5596053
EAN Code	3606480340789

Outlet front cover 50 mm

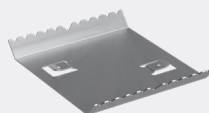

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/50 mm. Material: steel.

Ref.nr.	5595107
EAN Code	7315880098089

Jointing piece

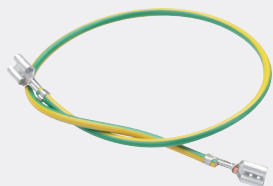

Joint piece, intended to joint trunking base parts together and connect them to earth between trunking sections. Dimension: 60/71/7 mm. Material: steel.

Ref.nr.	5590935
EAN Code	7315880066026

Earth wire 300 mm

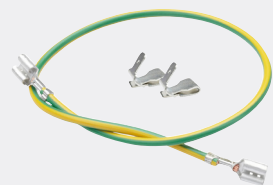

Secures the functional earth connection between the different components in the trunking installation. 300 mm long, 2.5mm². Equipped with 6.3mm flat tab cable terminals on both sides, green/yellow.

Ref.nr.	STA520086
EAN Code	7321679003738

Earthing wire incl. grip-on fixation clips

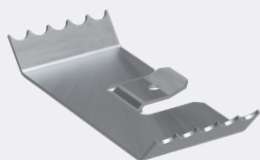

Secures the electrical bonding connection specifically between cable shelves in the steel trunking installation. Equipped with 6.3mm flat tab cable terminals on both sides and grip-on clips, green/yellow.

Ref.nr.	INS5510953
EAN Code	7321679004919

Earthing clamp cover

For earthing covers shorter than 100 mm. For 40 or 80 mm front cover. Dimension: 79/5/16 mm. Material: stainless steel.

Ref.nr.	INS5590508	5590509
EAN Code	7315880098027	7315880098010
Size	F40	80 mm

Wall bracket fixed High

Fixed depth wall brackets for mounting at a distance from the wall. High for trunking higher than 130 mm. Two self-drilling screws are included to each product. Material: Steel, unpainted.

Ref.nr.	INS55016	INS55036
EAN Code	73606489513610	3606489513627
Dimension	120/80/15 mm	120/80/35 mm

Wall brackets adjust High

Adjustable wall bracket for mounting of trunking at a distance from the wall. For trunking higher than 130 mm. Material: steel.

Ref.nr.	5583530	5583532
EAN Code	7315885583535	7315880078685

Adjust between	110-170 mm	160-260 mm

Ventilation rib holder

Ventilation rib holder. The ventilation rib installs securely with the included spring clip. Can be cut to length, and adjusted to the number of ventilation ribs installed. Two clips are included. The clip can be purchased as a spare part if lost. Dimension: 15/34/125 mm. Material: PLA plastic, halogen free.

Ref no	STA500057
EAN code	7321679003660

Ventilation rib jointing piece

Jointing piece for ventilation ribs. Grey colour. Makes for a nicer installation, when joining two ventilation ribs in mid air. Installs from the bottom of the ventilation rib with a click. Dimension: 19/10/100 mm. Material: PLA plastic, halogen free.

Ref no	STA500070
EAN code	7321679003608

Ventilation rib clip

The clip secures the ventilation rib holder. Dimension: 38/22 Ø2 mm. Material: steel.

Ref no STA500071
EAN code 7321679003400

Ventilation rib

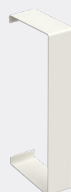

Ventilation ribs. Dimension: 20/10/2500 mm. Material: steel.

Colour White RAL9010
Ref.nr. INS5590444
EAN Code 8720871002652

Joint Cover piece

Joint cover piece, intended to cover joints between trunking sections. Dimension: 183/72/30 mm. Material: steel.

Colour White RAL9010
Ref.nr. 5595323
EAN Code 7315880085331

Earth terminal

Earth terminal for earthing of front cover. Installation by simply twisting into the 80 mm front cover. Use in combination with earthing wire. Material: electroplated steel.

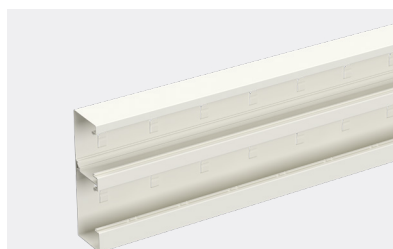

Ref no STA520098
EAN code 7321679003752

Stago WGX 233/72

Trunking Base

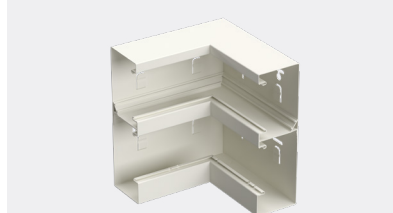

Steel trunking base with 80 mm front opening. Installs on wall or on fixed or adjustable brackets. Can be divided into compartments by cable shelves. Powder coated. Dimension: 233/72/2500 mm. Material: Steel.

Colour White RAL9010
Ref.nr. INS5558003
EAN Code 7315880082989

Inside Corner

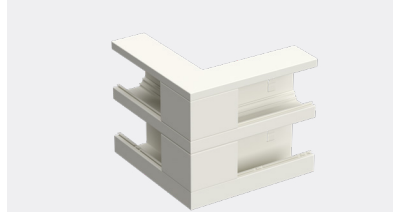

Inside corner with 80 mm front opening. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. To be used with sheet steel front cover. Dimension: 233/72/200 mm. Material: Steel.

Colour White RAL9010
Ref.nr. INS5558203
EAN Code 7315880083009

Outside Corner

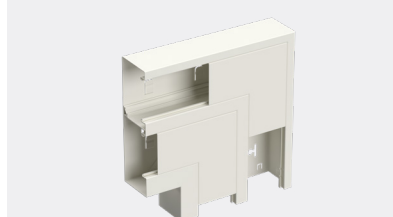

Outside corner with 80 mm front opening, kit including sheet steel front cover. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 233/72/200 mm. Material: Steel.

Colour White RAL9010
Ref.nr. INS5558403
EAN Code 7315880083023

L-piece kit dropper

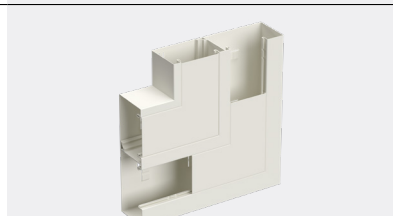

90° bend with 80 mm front opening. Dropper. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 300/72/300 mm. Material: Steel.

Colour White RAL9010
Ref.nr. STA550169
EAN Code 8720871002638

L-piece kit riser

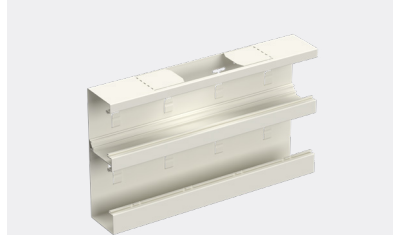

90° bend with 80 mm front opening. Dropper. Kit including sheet steel front cover of 225 mm length. Can be divided into compartments by cable shelves. Integrated and removable partition wall included. Dimension: 300/72/300 mm. Material: Steel.

Colour White RAL9010
Ref.nr. INS5558503
EAN Code 7315880083047

T-piece riser

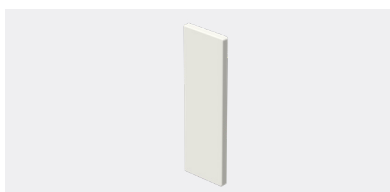

T-piece with 80 mm front opening and integrated flanges that must be bent up to a 90° angle before assembly. Dropper. Can be divided into compartments by cable shelves. Integrated and removable partition wall, provided with pre-punched holes, included. To be used with sheet steel front cover. Dimension: 233/72/400 mm. Material: Steel.

Colour White RAL9010
Ref.nr. INS5558603
EAN Code 7315880083092

End piece

Stop end intended to cover the ends of the trunking base. Dimension: 233/72/11 mm. Material: Steel.

Colour	White RAL9010
Ref.nr.	INS5558803
EAN Code	7315880083160

Cable shelf single 72 mm

Single cable shelf, intended to divide the trunking into compartments.

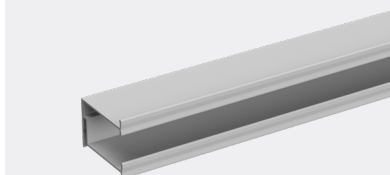

Dimension: 27/60/1000 mm. Material: steel.

Material	Steel
Ref.nr.	5591740
EAN Code	7315885591745

Cable shelf double 72 mm

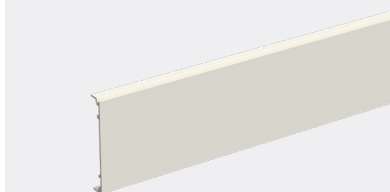

Cable shelf, double, intended to divide the trunking into compartments. Dimension (steel): 41/52/1000 mm. Dimension (PVC): 49/61/500 mm.

Material	Steel	PVC
Ref.nr.	5591743	5591720
EAN Code	7315880113362	7315885591721

Front cover 80 mm

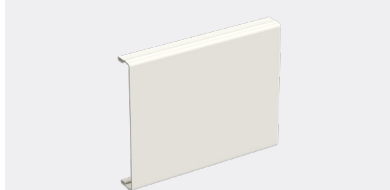

Front cover for the 80 mm front opening. The front cover guarantees equipotential bonding when installed in the trunking base. Dimension: 80/12.7/1500 mm. Material: steel.

Colour	White RAL9010
Ref.nr.	INS5596003
EAN Code	7315880097990

Outlet front cover 100 mm

Outlet front cover kit including two front cover pieces, to be fitted on either side of socket outlets. Dimension: 80/12.7/100 mm. Material: steel.

Colour	White RAL9010

Technical data

Standards	The products comply with the standards:
	EN 50085-1 & IEC 61084-1
	EN 50085-2/1 & IEC 61084-2/1
	"The products satisfy the provisions for CE marking according to the Low Voltage Directive 2014/35/EU."
	"The products comply with the RoHS directive 2011/65 EU, REACH Directive 2006/1907 EU (Restriction of Hazardous Substances)"
	KEMA KEUR certificate Number 71-123577 REV.1

Material data

Material	Pre-galvanized sheet steel in accordance with EN 10346
Density	7.646 g/cm³
Linear expansion	11.5x10-6/°C
Surface treatment	Zinc coating, Powder coated
Colour spec	White RAL9003
	White RAL9010
	White RAL1013
	Black RAL9017
	Optional acc. to customer requirement

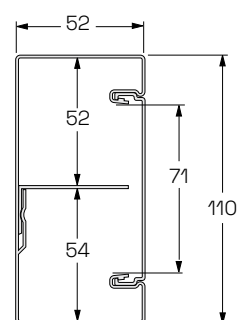

Operative data

Temperature range	From -25°C to +60°C
Suitable outdoors	No
Degree of protection	IP20
Suitable for environmental, Corrosion Class According to ISO 12944-2	C1, C2
Impedance of ducting length or trunking length	3,3 mΩ/m
Trunking access cover retention	Access cover can only be opened with a tool.
Non reusable fasteners	Earth terminal for 80 mm and 40 mm front cover (STA520098)
	Earthing grip (INS5510953)

One provider,
moving the
industry forward

Dedicated wiring device – smart design, built for ease of use

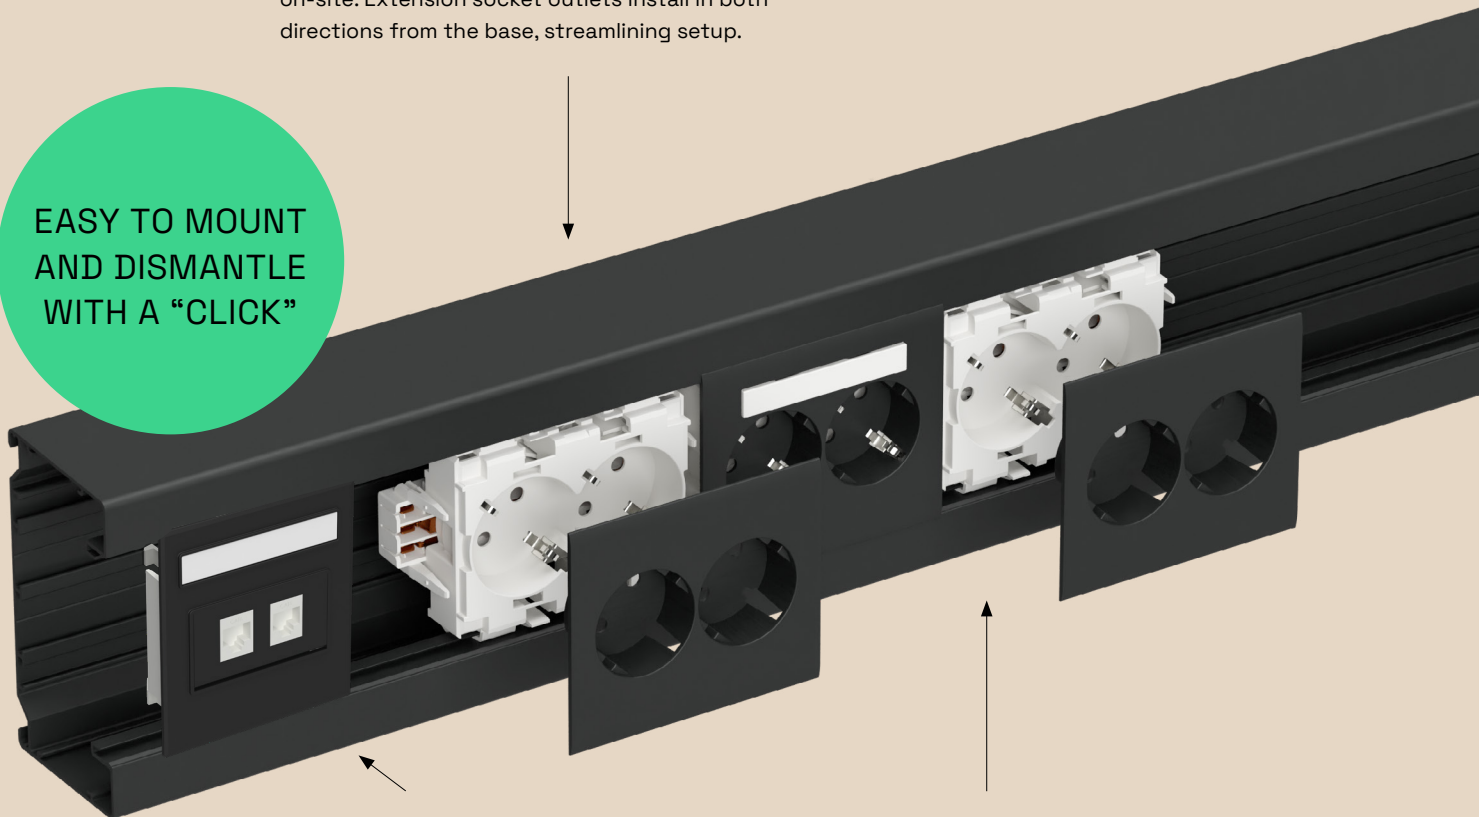

Our wiring devices provide a safe and efficient solution for all your wiring needs within installation trunking systems. Certified with the Intertek S-mark, they meet strict European safety standards. Designed for versatility, they're ideal for commercial buildings, offices, schools, hospitals, warehouses, and government facilities. Every component is engineered for a perfect fit — easy to install, easy to adapt.

Easy to use, easy to expand

Our wiring devices are built for flexibility and ease of use. They can be mounted and dismantled without removing the entire system, saving time on-site. Extension socket outlets install in both directions from the base, streamlining setup.

With fewer and smarter parts, procurement, planning, and installation become simpler for any building project.

EASY TO MOUNT
AND DISMANTLE
WITH A “CLICK”

Versatile in every connection

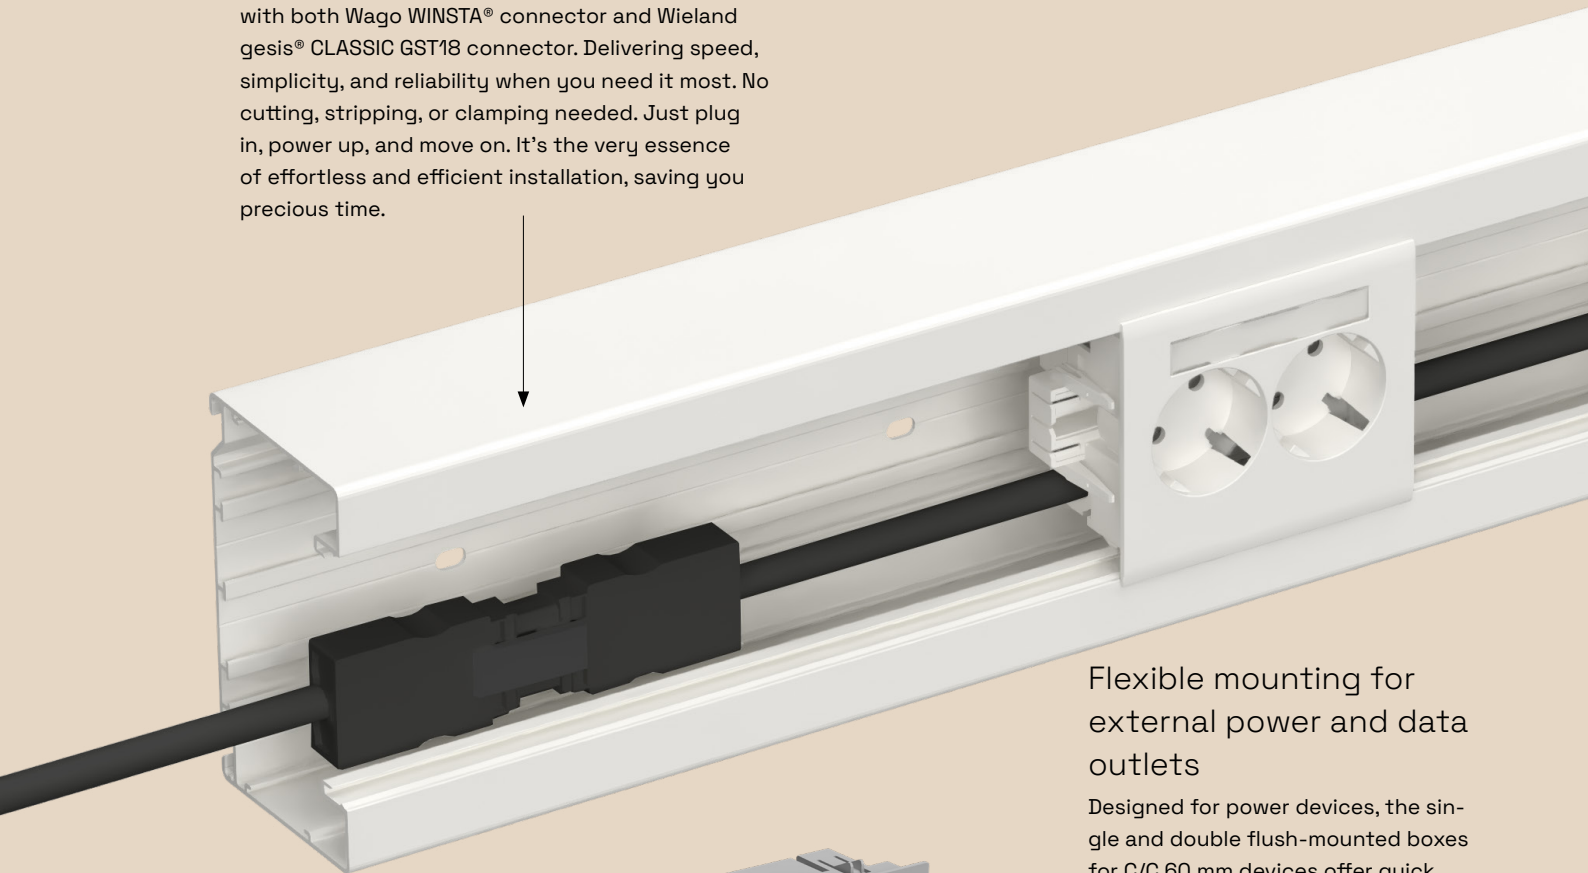

An elegant and adaptable RJ45 solution designed for fast, click-in installation — horizontally or vertically. Seamlessly integrates with Actassi and Keystone systems.

Safety in mind

Safety built in. Our wiring devices are designed to prevent access to live parts, even with the cover removed—maintaining IP20 protection at all times. With double insulation and no need for protective earth, they deliver safe, reliable performance you can trust.

Quality comes prewired

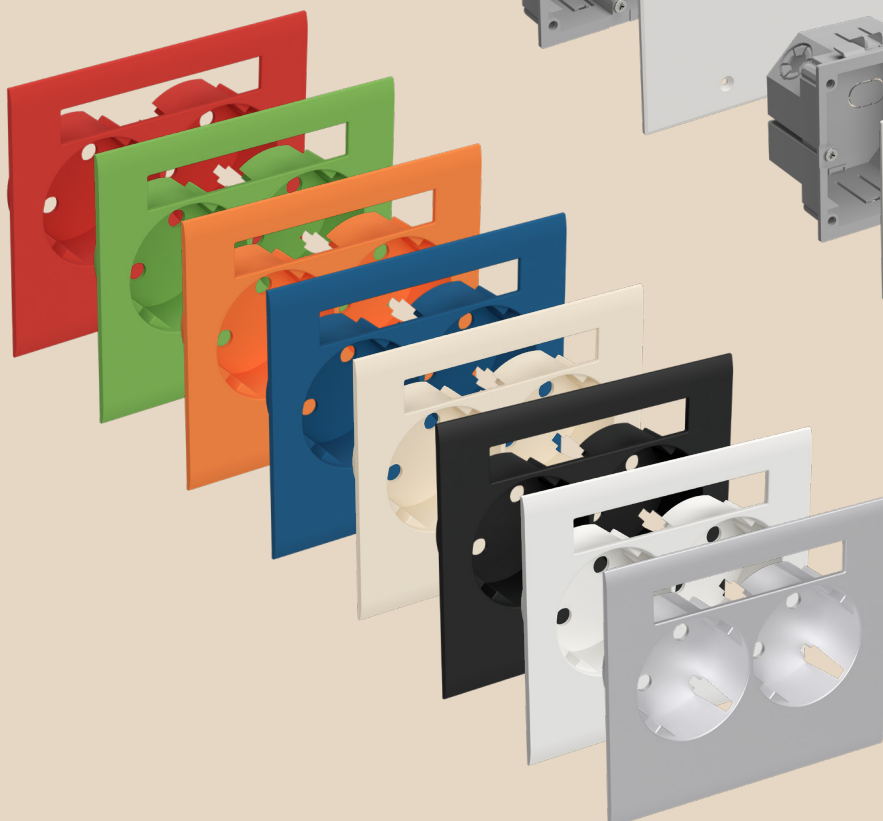

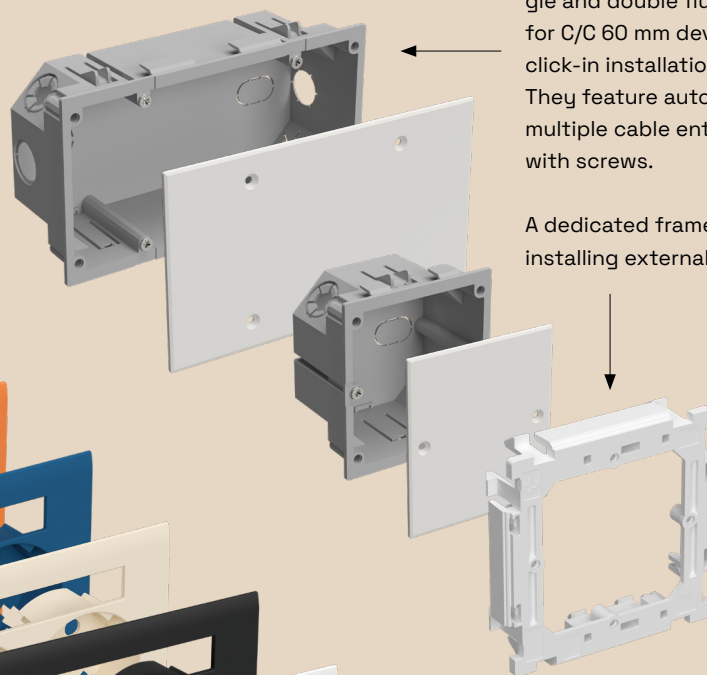

On busy construction sites, every second counts. The Stago® 2-way base socket outlet are available with both Wago WINSTA® connector and Wieland gesis® CLASSIC GST18 connector. Delivering speed, simplicity, and reliability when you need it most. No cutting, stripping, or clamping needed. Just plug in, power up, and move on. It's the very essence of effortless and efficient installation, saving you precious time.

Flexible mounting for external power and data outlets

Designed for power devices, the single and double flush-mounted boxes for C/C 60 mm devices offer quick click-in installation and easy removal. They feature automatic strain relief, multiple cable entries, and a sleek lid with screws.

A dedicated frame is also available for installing external data outlets.

Colour your installation

Our socket outlets are available in a wide range of colors—such as white, silver, and black for design aesthetics, or red, green, blue, and orange to meet technical needs in sectors like health care and education.

Dedicated wiring device

Base socket outlet – direct connect

2 way base socket outlet with direct connect for installation in trunkings with 80 mm front opening. 250V/16A rating. The front cover is installed after the socket, and locks the socket in the trunking. The terminal block is located on the backside of the socket. Extension socket outlets can be installed in both directions. Dimension: 100/84/52 mm. Material: PC, halogen free.

Color	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA501000	STA501060	STA501002
EAN Code	7321679003028	7321679003257	7321679003035

Base socket outlet screw connect

Socket outlet 2-way base with screw connect for installation in installation trunkings with 80 mm front opening. 250V/16A rating. The front cover is installed after the socket, and locks the socket in the trunking. The terminal block is located on the backside of the socket. Extension socket outlets can be installed in both directions. Dimension: 100/84/52 mm. Material: PC, halogen free.

Color	White RAL9003	White RAL9010	Black RAL9017

EAN Code	7321679003059	7321679003806	7321679003066

Extension socket outlet

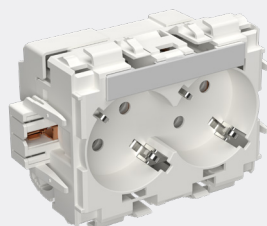

2 way extension socket outlet intended for installation in installation trunkings with 80 mm front opening. Halogen free. 250V/16A rating. The front cover is installed after the socket, and locks the socket in the trunking. The front cover can be replaced if worn or damaged. The extension socket outlet can be installed in both directions. Dimension: 100/84/42 mm. Material: PC, halogen free.

Color	White RAL9003	White RAL9010	Black RAL9017
Ref.nr.	STA501010	STA501063	STA501012
EAN Code	7321679003073	7321679003769	7321679003080

Base socket outlet – direct connect without cover *

2 way base socket outlet with direct connect and without cover. Intended for installation in installation trunkings with 80 mm front opening. 250V/16A rating. The front cover is installed after the socket, and locks the socket in the trunking. The terminal block is located on the backside of the socket. Extension socket outlets can be installed in both directions. Dimension: 100/84/50 mm. Material: PC, halogen free.

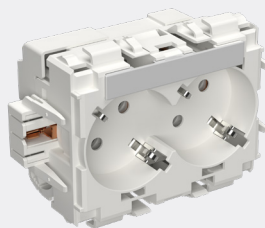

Ref.nr.	STA501004
EAN Code	7321679003042

* For a safe installation, a front cover must always be installed to ensure the installation is properly completed and to avoid any electrical risks

Base socket outlet – screw connect without cover *

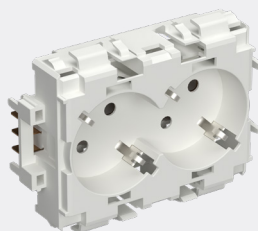

2 way base socket outlet with direct connect and without cover, for installation in installation trunkings with 80 mm front opening. 250V/16A rating. The terminal block is located on the backside of the socket. Extension socket outlets can be installed in both directions. Dimension: 100/84/50 mm. Material: PC, halogen free.

Ref.nr.	STA501008
EAN Code	7321679005015

Extension socket outlet without cover *

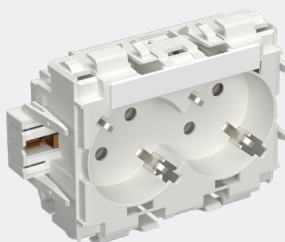

2 way extension socket outlet for installation trunkings with 80 mm front opening. Halogen free. 250V/16A rating. The extension socket can be installed in two directions. Dimension: 100/84/42 mm. Material: PC, halogen free.

Ref.nr.	STA501013
EAN Code	7321679005039

Base socket outlet with green LED power indicator – direct connect without cover *

2 way base socket outlet with direct connect and without cover, intended for installation in installation trunkings with 80 mm front opening. 250V/16A rating. The terminal block is located on the backside of the socket, and extension socket outlets can be installed in two directions. Dimension: 100/84/50 mm. Material: PC, halogen free.

Color	White RAL9003
Ref.nr.	STA501003
EAN Code	7321679005008

Base socket with Wago WINSTA, without cover *

2-way base socket outlet without cover. Provided with 2 prewired Cca cables 31.5cm 3x 2.5mm² and male/female installation couplers Wago WINSTA. Perfect for Plug-in installations. Cable color is black. Extension socket outlets can be installed in both directions. Dimension: 100/84/42 mm. Material: PC, halogen free.

Ref.nr.	STA501081
EAN Code	7321679005459

Base socket with Wieland GESIS, without cover *

2-way base socket outlet without cover. Provided with 2 prewired Cca cables 31.5cm 3x 2.5mm², and male/female installation couplers Wieland gesis CLASSIC GST18. White cables. Extension socket outlets can be installed in both directions. Dimension: 100/84/50 mm. Material: PC, halogen free.

Ref.nr.	STA501082
EAN Code	7321679005374

* For a safe installation, a front cover must always be installed to ensure the installation is properly completed and to avoid any electrical risks

Front cover with label window

Front cover 2-w with label window. The front cover installes after the socket is installed in the trunking. Sold as spare part or together with a base socket outlet without cover. For use in trunking with 80 mm front opening. Dimension: 100/84/19 mm. Material: PC, halogen free.

Guide to colour codes for socket outlets

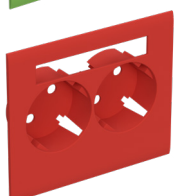

Colour: Orange
Application: Control circuits, isolated systems
Purpose: Special function, safety identification

Colour: Blue
Application: Communication, KNX, low voltage
Purpose: Differentiation from power circuits

Colour: Green
Application: Emergency power, fire alarms
Purpose: Critical circuit visibility

Colour: Red
Application: Safety/grounding/monitored system
Purpose: Safety indication

Technical data

Rated Current \ Voltage	16 A / 250 V.
Frequency	50Hz
Standards	
"Fixed Socket Outlet with Cover plate for Cable trunking Systems"	IEC 60884-1: 2002+A1+A2
	SS 428 08 34: 2013+T1
	SFS 5610: 2015+A11
	NEK 502: 2016 + A1
Installation box	EN IEC 60670-1: 2021+A1, LVD (2014/35/EU)
RJ 45 Connector	TIA/EIA-568-C.2-1 Category 6 and ISO 11801 Class E
	"The products comply with the RoHS directive 2011/65 EU, REACH Directive 2006/1907 EU (Restriction of Hazardous Substances), WEEE Directive 2012/19/EU"

Approvals/Certification

"Fixed socket outlet with cover plate for Cable Trunking Systems"

Intertek Semko AB, Reference No. SE-S-2300298/299, S-Mark

Installation box

Intertek Semko AB, Reference No. SE-S-2300300, S-Mark

RJ 45 Connector, Category 6

EC... Force Technology Test report Nr. 2019-041

Material data

Material	Polycarbonate (PC, Halogen free)
Density	1.2 g/cm ³
Colour spec	White RAL9003, White RAL9010. White RAL1013, Black RAL9017, Silver, Red RAL3020, Green RAL6018, Orange RAL2003, Blue RAL5017

Operative data

Socket Outlet	
Temperature range	From -25°C to +40°C
Suitable outdoors	No
Degree of protection	IP20
Method of connecting the cable	Rewirable
Type of terminals	Screwless
	Screw-type
Nominal cross-sectional area	2,5 mm ² / For 1,5 mm ² (To be checked the country regulations)
Type of cable	Rigid
RJ45 Connector	
Product description	Unscreened Category 6 RJ45 Characterised up to 250 MHz, 100Ω
