

Press Release

Pforzheim, 22 June 2026

No redundancies at Witzenmann – the company remains on track!

Despite the challenging global economic climate, Witzenmann has managed to avoid redundancies by offering a voluntary redundancy scheme. Plans to invest in the future of the Pforzheim site remain in place.

This is where the future is being shaped in Pforzheim. By investing in this site, we are setting the stage for future growth and consolidating our position as a technology leader. (Image source: Witzenmann GmbH)

The process was challenging for everyone involved, requiring them to make personal decisions. We are therefore extremely grateful to all our staff and partners for their constructive, responsible and respectful support throughout this period.

Witzenmann is undergoing a transformation. Our strategic reorientation is progressing according to plan, as is the expansion of our state-of-the-art site in Pforzheim. By investing in this site, we are laying the foundations for future growth and maintaining our position as a technology leader.

Although the economic climate remains challenging, we are looking to the future with confidence. Our cutting-edge technologies are in high demand worldwide, particularly in the semiconductor industry, as well as for modern data centres and AI infrastructures. This highlights our company's innovative strength.

Thanks to our diverse range of products and services, which includes flexible components and piping systems for the mobility sector, innovative solutions for

industrial applications such as heat pumps and nuclear technology, design services, and piping systems for large-scale plant construction and specialised applications in the aerospace sector, we are strategically positioned in high-growth sectors of the future.

The Witzenmann Group

Technology that connects. Perfection that moves.

We are your global technology leader for the safe transmission of media, and set standards worldwide. Manufacturers, suppliers and service providers in the building, mobility and industrial sectors around the globe benefit from our unique knowledge, outstanding engineering expertise and drive for perfection.

With our piping systems, metal hoses, expansion joints, metal bellows, pipe supports and vehicle components, we offer innovative product solutions and services – also for the key technologies of the future. Semiconductor manufacturing, the hydrogen economy or e-mobility: whatever the field, we are actively shaping the transition to a decarbonised world. Our solutions are reliable, efficient and sustainable, even in the most challenging applications.

We have one goal in mind: satisfied customers whose operations run smoothly and efficiently. With the world's most comprehensive and diverse product range, our family-owned company offers unparalleled solutions. And with around 4,400 dedicated employees in 16 countries, we are well prepared to support current as well as future customers – including you!
