

TRADEMASTER® 15A EXTERNAL PRESSURE PLATED DUPLEX RECEPTACLE

Install Faster.
Save Time. Make
More Money.

As the evolution of wiring in homes shifts, the need for a secure, reliable receptacle to accommodate larger gauge wires is as important as ever. The latest TradeMaster® Duplex Receptacle features an external pressure plate to enable a faster, more secure installation, reducing miswiring and callbacks.

Built with builders and contractors in mind, the receptacle is designed to expedite the work on single-family homes, multi-dwelling units and hospitality projects.

Save Time on Installation

Compression plates maximize holding power, eliminating the need to loop wire. Simply strip the wire, insert under the external pressure plate, clamp and tighten.

Fit Larger Wire Gauge Sizes

Accepts #14AWG to #10AWG solid and stranded wires and features increased spacing for up to #10AWG wire.

Accepts CCA/Copper Wires

Offers cost-savings benefit and flexibility to accept a range of wire types.

Tamper Resistant

Prevents improper insertion of foreign objects, complete with "invisi-shutters" for an invisible effect.
