

Double Chain Clamp

Pipe and Industrial Tools

Features and Advantages

- Precision Alignment - The double jack bars, spaced around the outside diameter of the pipe, provide accurate alignment and reforming of the internal or external diameters of both pipes.
- Extremely Tough - Reforms pipes on both sides of the weld joint to schedule 80, and aligns all wall schedules, elbows, tees and other fittings.
- Adaptable- The chain clamp can be used to support, align and reform elbow, tees and other fittings that cage clamps cannot. One chain clamp covers the range of eight (8) cage clamps.
- Extra Heavy Duty Independent Jackbars - Enables the operator to form the pipe to the required shape. Each jackscrew has independently pivoting feet to cope with uneven surfaces.

Specifications

B&B Double Chain Clamps can align and reform pipe and vessels up to 20 feet in diameter and up to schedule 80 thickness. Heavy duty jack bars have three alignment screws and each clamp has 2 tightening devices to adequately tighten and reform rounds into desired position. All clamps are shipped in a metal storage and transport gang box free of charge, protecting the clamp and allowing years of use. The B&B Double Chain clamps are available as stainless steel models with stainless steel contact points and chain to enable the welding of exotic material with no risk of contamination.

PN	Description	Size	Jackbars	Main Blocks	Shipping Weight
1240	Double Chain Pipe Clamp	10-36"/254-915 mm	9	1	220 lbs/100 kgs
1241	Double Chain Pipe Clamp SS	10-36"/254-915 mm	9	1	220 lbs/100 kgs
1244	Double Chain Pipe Clamp	10-54"/254-1372 mm	14	1	300 lbs/136 kgs
1245	Double Chain Pipe Clamp SS	10-54"/254-1829 mm	14	1	300 lbs/136 kgs
1248	Double Chain Pipe Clamp	10-72"/254-1829 mm	20	1	387 lbs/176 kgs
1249	Double Chain Pipe Clamp SS	10-72"/254-1829 mm	20	1	387 lbs/176 kgs
1254	Double Chain Pipe Clamp	10-108"/254-2743 mm	32	2	554 lbs/251 kgs
1255	Double Chain Pipe Clamp SS	10-108"/254-2743 mm	32	2	554 lbs/251 kgs
