

KORN FERRY CHIEF DIGITAL LEADER ACCELERATOR

Accelerate Influence. Architect the Enterprise. Lead with Digital Authority.

The New Reality: **Disruption is the Default**

In an AI-native, platform-driven world, disruption isn't a phase - it's the norm. Today's technology leaders are no longer just delivery experts. They are enterprise architects - shaping strategy, driving innovation, and enabling growth across the business. Yet despite holding some of the most complex portfolios in the C-suite, many lack the levers and influence to lead at the level their roles demand.

The Challenge: **Complexity Without Control**

Tech leaders must keep the business running while reimagining it. They're expected to influence board-level decisions, lead large-scale change, and manage sprawling teams - often without direct ownership of outcomes. This demands a new kind of leadership: one that blends technical fluency with strategic agility, emotional intelligence, and enterprise-wide influence.

The Leadership Shift: **From Functional Expert to Enterprise CXO**

Today's digital leaders must operate horizontally - navigating silos, influencing skeptics, and challenging legacy thinking. They must translate digital ambition into commercial outcomes, while leading through complexity, scale, and GenAI acceleration. But many haven't been equipped with the leadership capabilities to thrive in this new paradigm.

Korn Ferry's Response: The Chief Digital Leader Accelerator

The Korn Ferry Chief Digital Leader Accelerator is a two-day high-impact, immersive experience designed to close the leadership gap; fast. It equips senior technology leaders to lead boldly, influence broadly, and deliver strategically. Through expert insights, experiential learning, peer collaboration, and mentorship, participants:

- **Define their enterprise leadership mandate**
- **Build influence across the boardroom and beyond**
- **Accelerate GenAI adoption and digital strategy execution**
- **Translate complexity into clarity, and strategy into outcomes**

This is not a training programme. It's a leadership accelerator. It's where technologists become enterprise CXOs. It's where digital authority meets enterprise impact.

What To Expect: Preparation & 2-Day Programme Format

Preparing for the Programme – Your Leadership Blueprint

Your programme registration includes a complete Korn Ferry leadership assessment, benchmarked against our Enterprise Leader Success Profile - giving you a powerful, personalised data record of your strengths and growth opportunities. You'll receive in-person feedback in advance of the programme, where we will also explore your priorities and challenges so we can tailor the experience.

We make sure you arrive primed, with clarity and context, with a leadership blueprint that accelerates your impact immediately – and that you leave with a clear, impactful Leadership Proposition that will guide your pathway going forward.
