SOLUTION SHEET

Octave Tempo Operating Procedures

Purpose-built for high-reliability organizations operating in high-risk environments to unify work processes, elevate productivity and eliminate errors caused by missing or outdated information

Harness the power of digital transformation in your organization with Octave Tempo Operating Procedures (formerly AcceleratorKMS).

"This is real digital innovation for our front-line employees."

Production Manager

Prevent incidents caused by missing or inaccurate information and streamline work

Standardize work instructions and heath, safety, security and environment (HSSE) information to keep every field worker safe, aligned and compliant.

Improve the reliability and consistency of tasks completed by plant operators using the automated feedback cycle.

Enable learning in the flow of work

Give connected workers digital access to everything they need anytime, anywhere on any device.

Share feedback and collaborate through an intuitive, social media-style comment system t hat shapes how procedures are applied and used.

Keep workers safe and informed during high-risk tasks with automated workflow triggers.

Streamline onboarding and increase productivity

Train workers to be their best by providing easy access to all learning content at the point of need on any device.

Enable learning in the flow of work so employees can develop skills as they complete operational tasks, reducing onboarding time and costs.

Drive continuous improvement through reporting, status monitoring and automated compliance reporting.

Solving the toughest knowledge management problems in high-consequence operations

Industrial and manufacturing organizations must avoid major incidents which impact production, the environment and the health of workers. Our solution connects every worker and system through a digital knowledge ecosystem that drives safer, smarter operations.

Workers get instant access to accurate, up-to-date procedures and best practices. At the point of need and in the flow of work, organizations can scale operational excellence, global standardization and better compliance management with Octave Tempo Operating Procedures.

Value at stake: Connected worker
(All figures cumulative, 2016-2025)

$100 billion

Potential value addition for industry

13% reduction

Estimated reduction in accidents & injuries

A proven fit in Fortune 500 digital transformations

Tempo Operating Procedures has been adopted by more than 200 industrial facilities worldwide, including leading vertically integrated energy companies, major industrial agriculture businesses and some of the world's largest chemical manufacturers.

Tempo Operating Procedures helps prevent environmental impacts, rises in insurance premiums, lost time and revenue and equipment failure. All these issues can have a critical impact on businesses after only one incident. Tempo Operating Procedures ensures tasks are completed correctly the first time, reducing risk and protecting your organization.

Practical solutions to complex problems

Tempo Operating Procedures combines a connected worker platform, component content management system (CCMS) and learner experience platform into one web application that workers in the field can use on the go. Tempo Operating Procedures makes work safer, smarter and more productive. It helps teams stay aligned, informed and signals that as soon as a task is complete the next task can start.

"The digital procedure is so much easier to follow. It's clear and laid out perfectly. I've attached the muddled procedure we have been following over the years. I am very excited to use Tempo Operating Procedures in the future. I will gladly torch this old paper version."

Operations Team Leader

About Octave

Octave is a leader in enterprise software, turning data into decisive action and intelligence into your edge. Our software solves for and simplifies complexity, from the design and build to operations and protection of people, property and assets – for any scope, at any scale. For decades, we've partnered with customers to sharpen performance, elevate efficiency and amplify results. From factory floors to entire cities, our solutions are tuned to scale up what's possible from day one onward.
