

# Making projects cost-effective and efficient

with Enterprise Project Performance (EPP)

To examine the potential returns enterprises can realize by deploying Octave's Enterprise Project Performance (EPP) platform, Octave Sequence Enterprise (formerly EcoSys), Forrester Consulting conducted a Total Economic Impact™ study.

## Benefits of an EPP approach

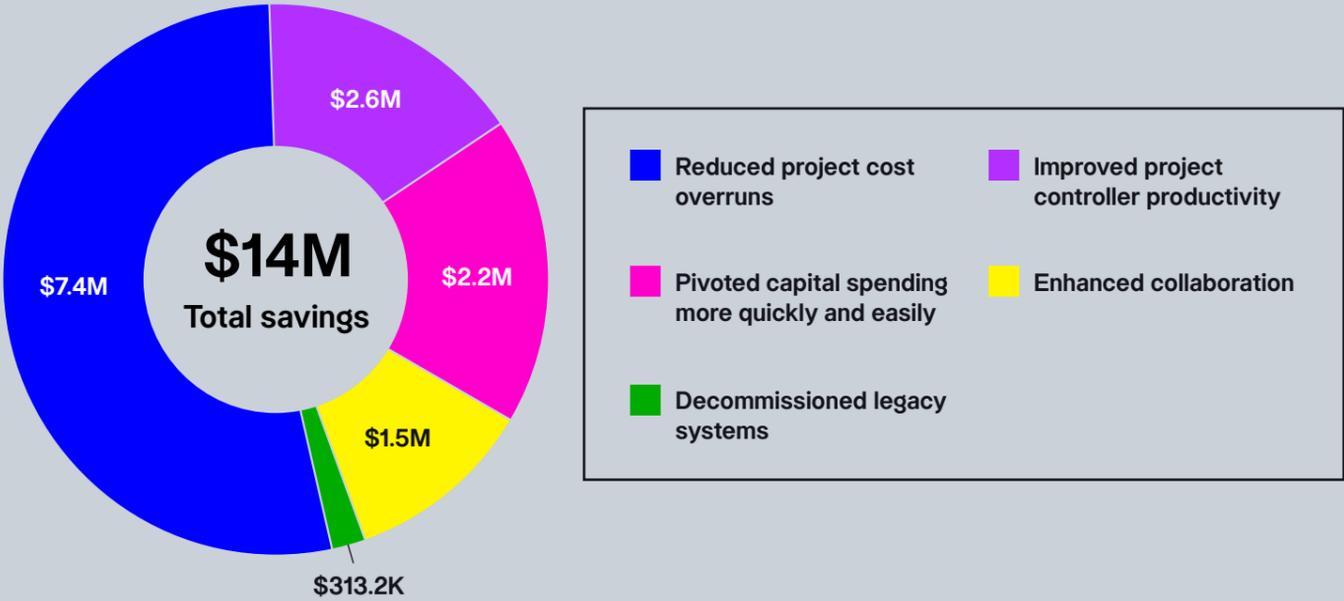

- Enhance visibility for all stakeholders
- Streamline management systems
- Build a richer data environment
- Access near real-time performance data
- Improve capital spend forecast accuracy

## Sequence Enterprise empowers users to:

- Be more cost effective**  
Consolidate procurements – Sequence Enterprise helps identify similar but separate procurements and obtain resources through larger buys, resulting in better prices.
- Improve predictability**  
Provide accurate forecasts – Sequence Enterprise reduced variations in forecasts, providing more accurate data, leading to more effective project plans.
- Make better decisions**  
Gain complete visibility – Managers obtained a singular view of the entire project portfolio which informed their strategies. They were given the tools to choose more profitable projects.

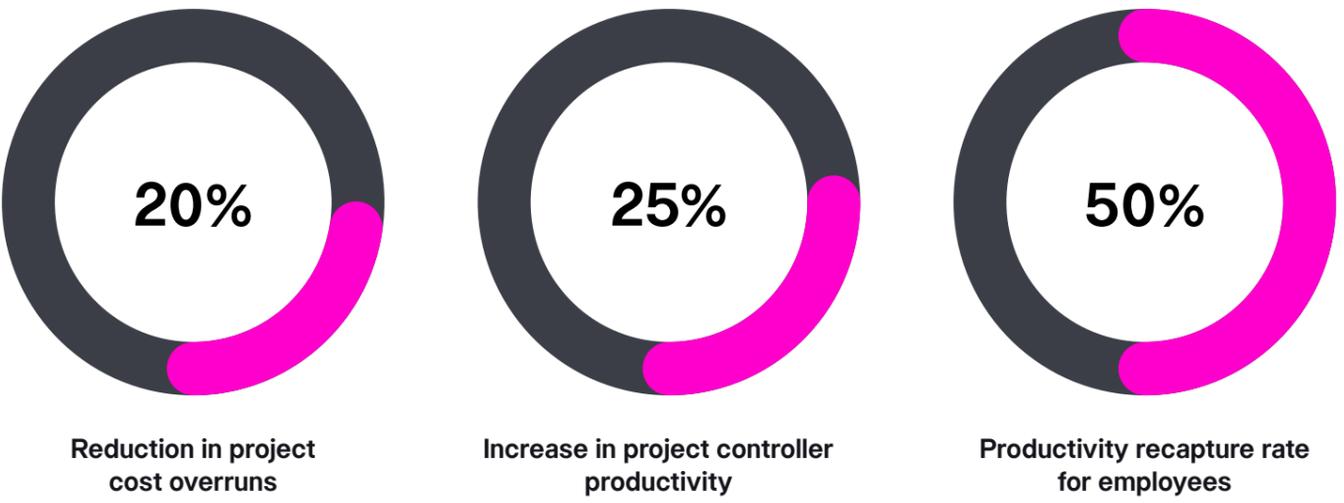

- \$6.42M**  
Net present value
- 85%**  
ROI
- 21-month**  
Payback period

## Where organizations save the most with Sequence Enterprise

*"With Sequence Enterprise, we now have visibility into our projects and across all our portfolios in one spot. We didn't have that before. Before there were a lot spreadsheets, project lists and so forth. With Sequence Enterprise, we can see what kind of a strategic fit projects are and how they align with our business objectives."*
