

PRODUCT SHEET

Octave Facets Electrical Virtual Training

Key Benefits

Improve flexibility - Master the material at your own pace. Study from home or the office, 24/7.

Reduce training costs - Eliminate travel expenses

Boost productivity - Maximize labor hours on existing projects

Increase efficiency - Share best practices and consistent methodologies. Ensure everyone receives approved training.

See the results - Receive regular reports that detail user activity

Accelerate learning - Quickly train large numbers of users. Scale up or down to meet project demands

Series offers comprehensive training for getting started with your Facets Electrical (formerly Smart Electrical) application, provided with the convenience of never having to leave your office.

Interactive, self-paced courses are designed to help students develop valuable skills and learn in an intuitive, innovative self-study format. Instruction is engineering workflow-driven, not command-centered.

Among our library of other virtual training courses, the Facets Electrical Virtual Training Series is a brand-new course that walks you through operations for:

- Creating Electrical, Wiring and Power Distribution Equipment
- Working with the Engineering Data Editor
- Creating Single-Line Diagrams
- Establishing Cable Block & Wiring Diagrams
- Managing Report Documentation
- Generate Composite Drawings
- And much more!

This multifaceted new curriculum will reshape your understanding of how electrical designs are created and maintained using the latest version of Facets Electrical. Get started today!

Course Information

Each course provides one individual an Internet login to the lessons available. Each lesson can be replayed as often as requested during the one-year access period. **Each course is priced per student, per course, per year of access.**

Online Virtual Training consists of:

- **Self-paced, virtual training sessions** – Provides overviews of Facets Electrical features and procedures, then are followed by step-by-step demonstrations of topics covered
- **Downloadable Exercises** – PDF documents that allow you to take your external training further. Each lab consists of new procedures related to demonstrations previously viewed in correspondent sessions
- **Hosted by the Octave Training Center** – Student progress is securely monitored by Octave’s helpful online learning center, the Octave Training Center Online training does not include access to Facets Instrumentation software or environment.

Expand your possibilities

Virtual training is perfect for people who find it difficult to leave the office. Plus, students who simply prefer self-study can enjoy the benefits of taking lessons at their own pace.

A virtual course can serve as an introduction to a topic prior to traditional instructor-led training. It can also be used as a “how-to” refresher for someone who has already experienced instructor-led training.

Get started today:

To purchase a course, please contact your local account manager. Once the purchase order is processed, you will be sent an activation key that enables one year of access to the course. The course is activated immediately so that you can start learning right away.

Course Number	Title	Online Virtual Training Module
S2VT094AE	Facets Electrical for user	Designed for engineers who will use the Facets Electrical to create electrical designs, and generate single-line diagrams, composite drawings, and cable block/wiring diagrams.

About Octave

Octave is a leader in enterprise software, turning data into decisive action and intelligence into your edge. Our software solves for and simplifies complexity, from the design and build to operations and protection of people, property, and assets– for any scope, at any scale. For decades, we’ve partnered with customers to sharpen performance, elevate efficiency, and amplify results. From factory floors to entire cities, our solutions are tuned to scale up what’s possible from day one onward.
