# Octave Tempo Shift Handover overview

Improving safety for power generation operators

## The challenge

Power generation sites often use inadequate data collection and sharing tools for crucial human procedures, with manual methods of data logging poorly connected to industrial software such as data historians and the CMMS. As poor shift handover processes can contribute to catastrophic incidents, these preventable risks to worker safety demand the need for consistent and detailed data management.

## The Octave solution

Octave Tempo Operations Management (formerly j5 Operations Management Solutions) provides a tried-and-tested digital platform with spreadsheet-like configurability and enterprise scalability. This comprises the Octave Tempo Operations Logbook (formerly j5 Operations Logbook), Octave Tempo Shift Handover (formerly j5 Shift Handover), Octave Tempo Standing Orders (formerly j5 Standing Orders) and Octave Tempo Work Instructions (formerly j5 Work Instructions). It also includes Tempo Operations Management IndustriaForm Templates.

## Tempo Shift Handover

Achieve consistent, safe and fully-informed shift handovers, improve communication and reduce the risk of hazardous incidents.

## Tempo Standing Orders

Communicate, distribute and track instructions on a digital platform, with an audit trail of team members who have received and acknowledged them.

## Tempo Operations Logbook

Record, track and manage events across the site consistently and efficiently, using modern web browsers and mobile devices.

## Tempo Operations Management IndustriaForm Templates

Consolidate paper and electronic forms into a single digital platform with spreadsheet-like configurability and enterprise scalability.

## Tempo Work Instructions

Manage the continuous stream of work instructions and complete any task productively and effectively.

**Tempo Shift Handover** is a digital platform that enables power generation operators to document and manage the execution of key industrial processes such as shift handover and the capture of operator shift logs.

## About Octave

Octave is a leader in enterprise software, turning data into decisive action and intelligence into your edge. Our software solves for and simplifies complexity, from the design and build to operations and protection of people, property, and assets— for any scope, at any scale. For decades, we've partnered with customers to sharpen performance, elevate efficiency, and amplify results. From factory floors to entire cities, our solutions are tuned to scale up what's possible from day one onward.
