

Build smarter: Advancing construction through intelligent asset management

Gain control of your equipment, schedules
and spend with **Octave Attune EAM**
(formerly HxGN EAM)

Attune EAM is a powerful asset management platform built for construction

It delivers real-time visibility, centralizes data and streamlines operations – so you can maximize efficiency, cut costs and keep high-value equipment performing at its best.

Unlock the potential of your construction assets with Attune EAM

Data-driven insights

Keep construction projects on track with real-time intelligence on asset status, maintenance schedules and performance metrics. Access critical information anytime, anywhere, on any device, whether you're on-site or in the office.

Work smarter, not harder

Attune EAM boosts productivity and optimizes resource allocation. Automated work order management streamlines workflows and improves labor efficiency by up to 70%.

AI insights for smarter, faster decisions

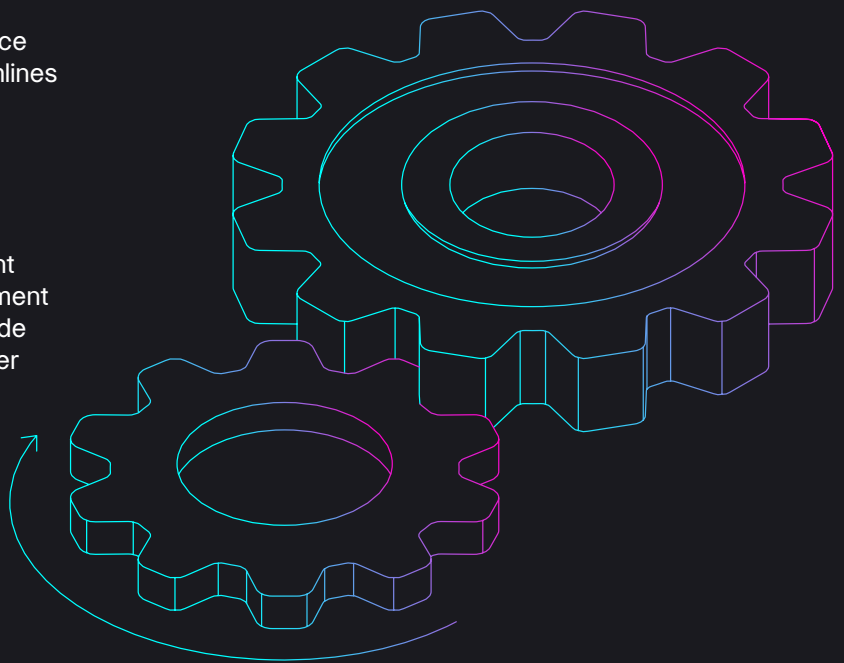

Boost team productivity with the Attune EAM Assistant (formerly HxGN Alix). From simplifying asset management and sharing best-practice guidance to streamlining code generation, the Assistant helps you work faster, smarter and more confidently.

Maximize uptime by 35% and cut maintenance costs by 50%

Keep critical assets operational with predictive maintenance schedules – reducing downtime, controlling costs and ensuring safer, more reliable operations.

Minimize waste and enhance your investments

With automated inventory management, ensure all projects stay within budget and on schedule. Achieve procurement efficiencies, decrease waste, and maximize working capital.

Transform asset value with Attune EAM

Octave's (formerly Hexagon Asset Lifecycle Intelligence division) integrated enterprise asset management solution gives you the power to track asset locations and conditions, digitalize maintenance activities and achieve operational excellence – driving more profitable construction projects.

05 Industry expertise and support, every step of the way

Tap into Octave's proven experience as a trusted partner in the construction industry. Our integrated solutions, training and dedicated support drive long-term success.

04 Build for today, scale for tomorrow

Attune EAM grows with your business. Adopt the solutions you need now and effortlessly expand as your projects and operations evolve.

03 Optimize every asset

Put your data to work with real-time asset tracking and actionable insights that ensure equipment stays operational, efficient, and aligned with project needs.

02 Operational efficiency and cost control

Boost profitability from day one. Manage your budget efficiently. Cut maintenance costs, improve asset uptime, and streamline operations for long-term ROI.

01 Integrated data for smarter decisions

Lay a solid foundation – unify and integrate data across systems, enhance traceability and inform more intelligent decision-making in a single platform, accessible anytime, anywhere.

Turn asset management into a competitive advantage with Attune EAM

Now's the time to build better, faster and more profitably with smarter decision-making, centralized data and real-time insights across your construction asset lifecycle.
