

Octave Tempo Operations Logbook overview

The challenge

Every industrial site has a stream of operations, maintenance and safety events occurring at all levels and areas within the process. Unfortunately, there are still inadequate, time-consuming methods such as paper, word processor, spreadsheet and homegrown applications being used to log these events. This increases organizational risk and inefficiencies.

Crucial daily information, such as shift handover reports, can be error-prone and take time to aggregate. This information is also poorly categorized, time-consuming to retrieve and not widely accessible. Poor traditional methods of data logging are not integrated with other software, such as data historians and Computerized Maintenance Management Software (CMMS) systems, resulting in dual capture and information silos.

How Tempo Operations Logbook provided the solution

To remedy these pains, companies worldwide use Tempo Operations Logbook (formerly j5 Operations Logbook). This application allows their operations teams to record, manage and view any event consistently and efficiently with a web browser and mobile device.

Tempo Operations Logbook users have reported the following benefits:

- Easy to use
- Consistent logs
- Simple customization
- Wide visibility of operations data
- Eliminates paper, spreadsheets and scattered databases
- Saves time and improves accuracy
- Advanced workflow capabilities
- Fast search and filtering
- Integration with other systems
- Real-time events monitoring

"Tempo Operations Management has contributed to the efficient and stable operation of INPEX assets. Information is standardized and accurate."

Jinsen Li

General manager, Information management and technology unit, INPEX

About Octave

Octave is a leader in enterprise software, turning data into decisive action and intelligence into your edge. Our software solves for and simplifies complexity, from the design and build to operations and protection of people, property, and assets— for any scope, at any scale. For decades, we've partnered with customers to sharpen performance, elevate efficiency, and amplify results. From factory floors to entire cities, our solutions are tuned to scale up what's possible from day one onward.
