

Today I will
see the doctor.

Doctor Visit

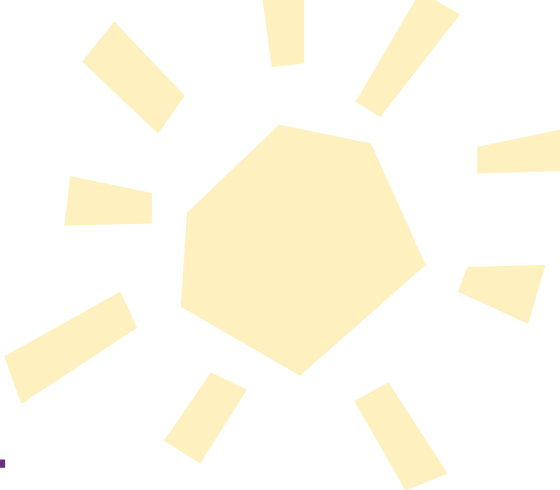

I am not getting
any shots today.

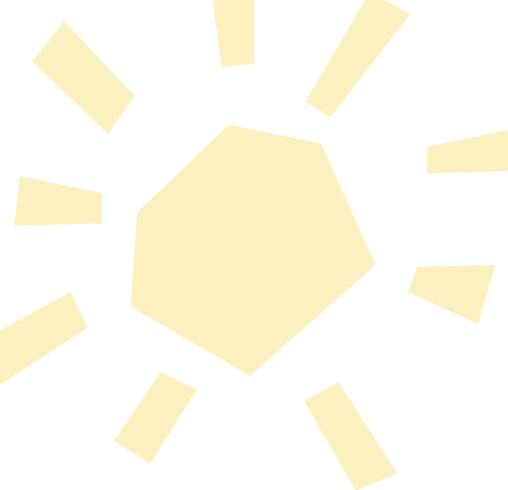

I tell the
people at the
front desk that
I am here.

I wait in
the waiting
room until my
name is called.

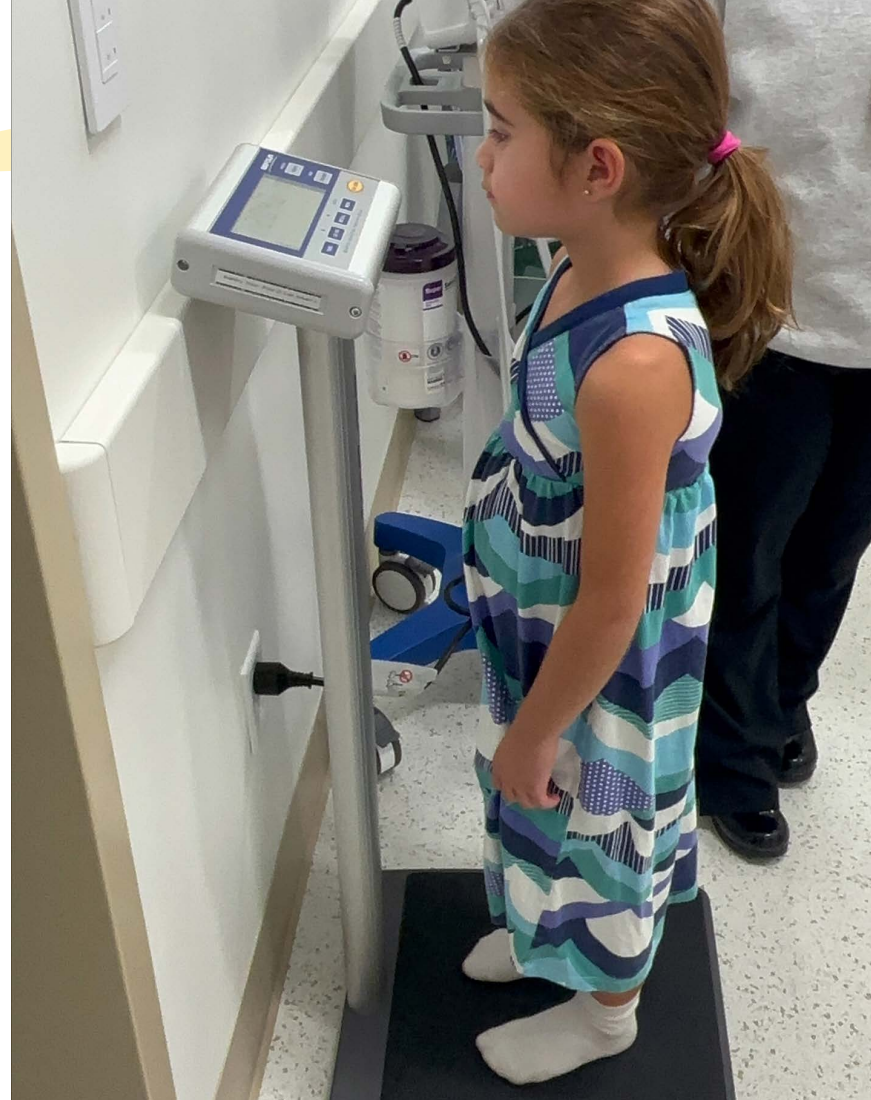

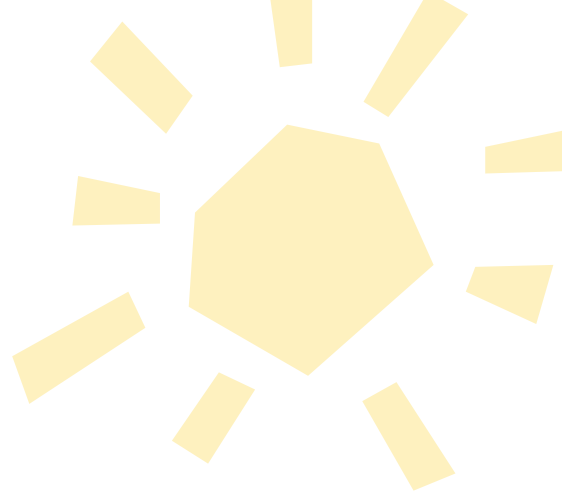

My name
is called.
We do 4 things.

1. Weigh me.

I take off my shoes.

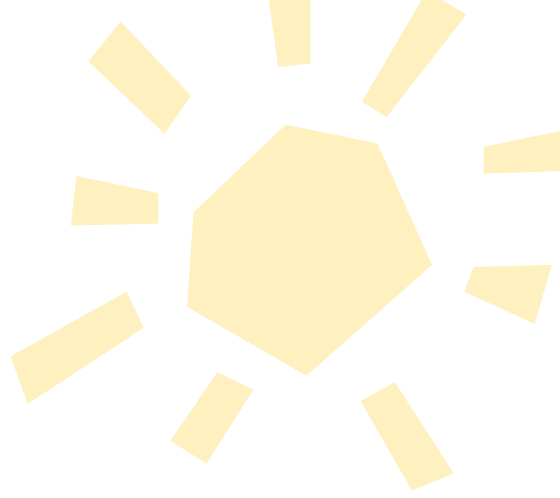

2. See how
tall I am.

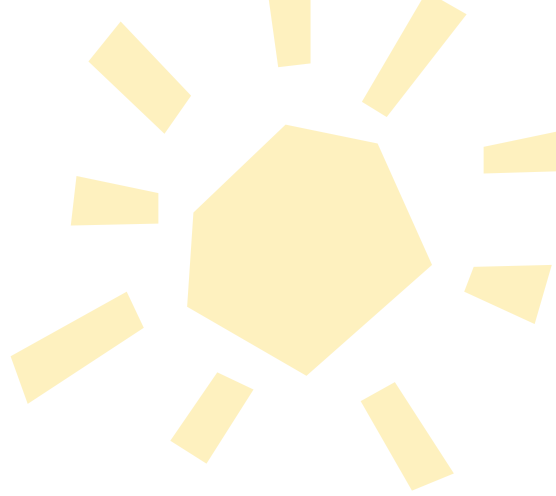

*The bar feels like a soft
pat on my head.*

3. Measure my head.

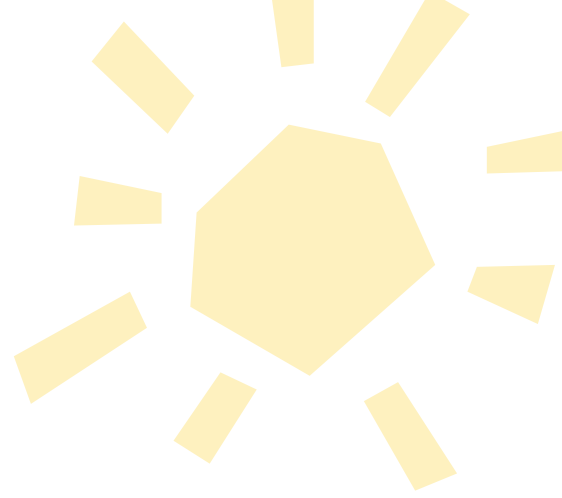

The measuring tape hugs my head.

4. Take my blood pressure.

The cuff hugs my arm really tight.

I walk to
another room to
see the doctor.

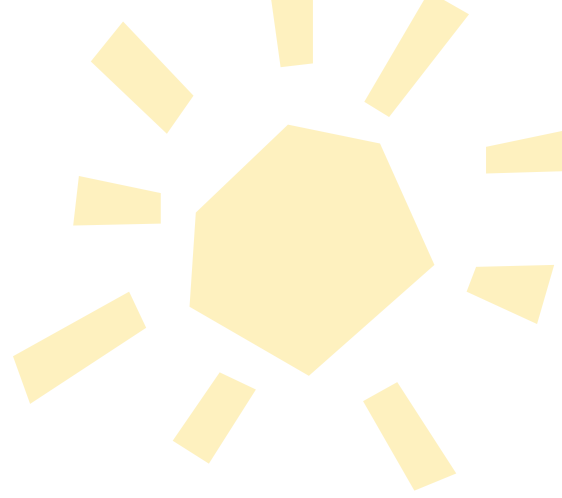

We all talk. I play with toys.

When it is time
to leave, I can
pick out a book
or a sticker.

Time to go
back to the car.
